THERM-A-REST®

THE PROMISE OF A BETTER NIGHT UNDER THE STARS.

We've spent close to a half century exploring the backcountry and testing high-performance materials and proprietary technologies to create better nights at camp. In turn, we've learned a few things about what it takes to design and build award-winning gear.

Whether it's the world's lightest insulated pad or a high-performance sleeping bag, our products provide the comfort and features that explorers and adventurers seek.

PHOTO: JAMES BARKMAN

ALL-NEW VALVES

**OVER 100 PROTOTYPES.
MORE THAN 500 NIGHTS IN THE FIELD.
COUNTLESS TESTS IN THE LAB.
A COMMITMENT TO THE BEST.**

Our classic valve had a legacy of performance; renowned for its ruggedness, intuitive operation and security. In 2017, we set out to engineer a new valve that retained the same characteristics as the classic valve while providing campers with speedy one-way inflation, faster deflation and a better experience.

After years of hard work, we are proud to present the brand-new **WingLock™** and **TwinLock™** valves.

WingLock™ Valve FEATURES

FASTER INFLATION

Larger valve opening allows the pad to inflate three times faster than our classic valve.

ONE-WAY INFLATION

Unique design keeps air from escaping during inflation.

RUGGED

Built for the rigors of the backcountry, our valve won't be compromised by dirt or grit.

OFF THE SLEEP SURFACE

Positioned comfortably off the sleeping surface of your pad.

INTUITIVE DESIGN

Precise molded cap and familiar motor skills make the valve as easy to use as a water bottle cap.

DEFLATION "WINGS"

When it's time to break camp, open the valve and twist the wings to deflate your pad twice as fast as our classic valve.

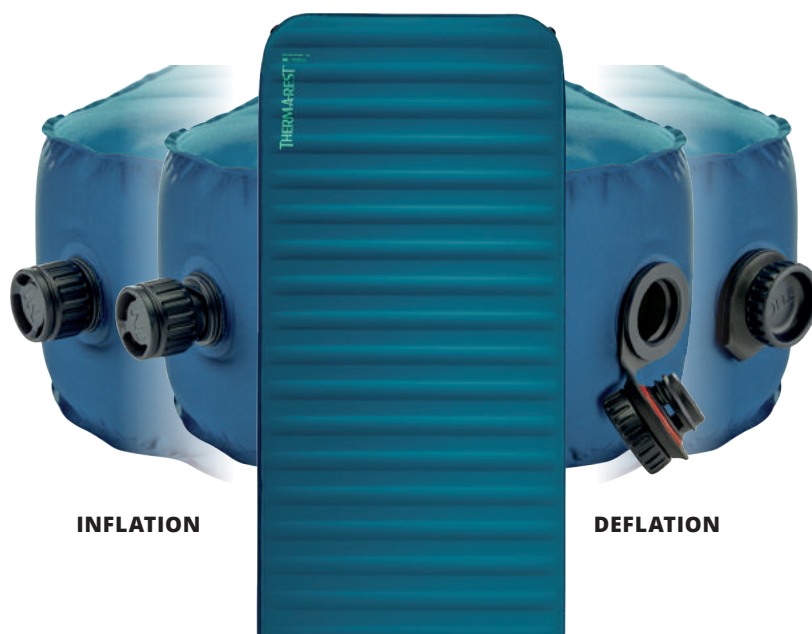

INCLUDED PUMP SACK

All NeoAir® pads now include a pump sack for easier breath-free inflation.

TwinLock™ Valve

For our larger pads, we also developed the **TwinLock™ Valve** which utilizes two one-way valves: a one-way inflation valve and one-way deflation valve that allows for five times faster deflation than our classic valve.

THE NEW R-VALUE STANDARD

COMFORT AT CAMP STARTS FROM THE GROUND UP.

When someone talks about poor sleep outdoors, the word “cold” tends to come up. A cold night leaves you tossing and turning, draining your body of precious heat and calories. A sleeping pad creates a critical layer of insulation between a camper and the cold hard ground. R-value is different from a warmth or temperature rating and is the best way to rate the performance of sleeping pads.

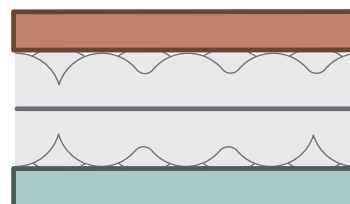

THE NEW STANDARD

We worked with an ASTM committee to create a test standard for rating sleeping pads. For 2020, this ASTM test standard will be used when testing all sleeping pads to provide a standardized R-value. This means that, for the first time, all sleeping pads will be rated according to the same standard, making it easy to compare the insulation of sleeping pads from different manufacturers.

THE R-VALUE TEST

The new test uses two plates, one below and one above the pad being tested. The bottom plate stays cold throughout the test while the top plate uses energy to maintain a specific temperature. At the end of the test, the amount of energy used by the top plate to maintain temperature is indicative of how well the pad was insulating the top plate from the cold of the bottom plate. This data is then used to calculate the pad's R-value.

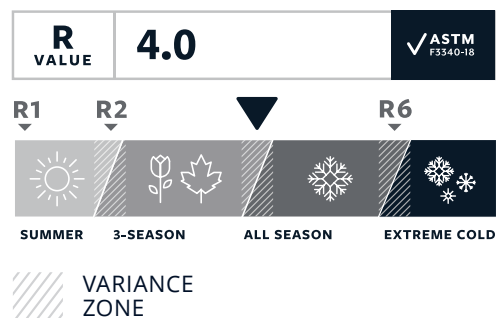

- Temp maintaining top plate
- Sleeping pad
- Cold plate

FINDING THE RIGHT PAD

Since R-value is a measure of insulation, it does not provide exact temperature ratings. The higher the R-value, the warmer your sleeping pad will feel. To help backpackers and campers find the right pad for them, we designed a seasonality chart to suggest ratings for different conditions. We built this seasonality chart as a guide, but variable like humidity, type of shelter, ground conditions and personal preference might prompt you to use a higher or lower R-value than our chart suggests.

DETAILED CHART

SIMPLE CHART

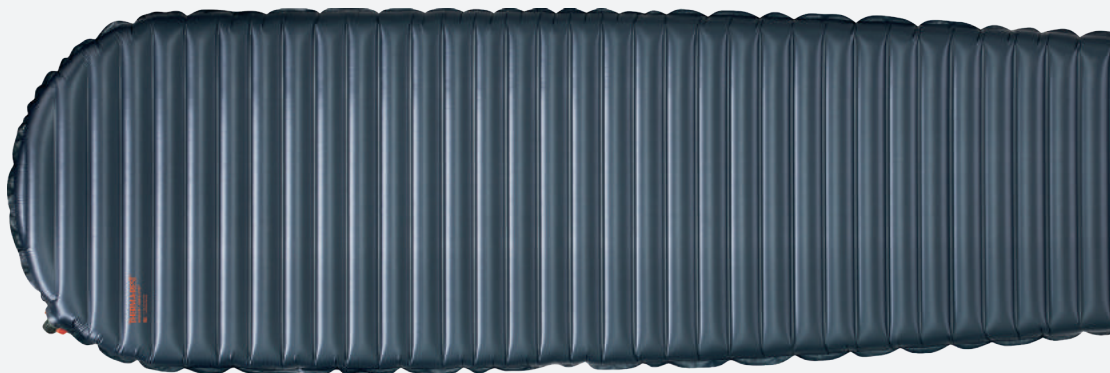

SLEEPING PAD TECHNOLOGY

The need for a better night outside prompted our founders to create the first self-inflating mattress in 1972. To this day, we have continued to evolve the technology that delivers better performance and comfort at camp.

NEOAIR®

For those counting every gram, our NeoAir pads offer stability and comfort in compact, featherweight packages.

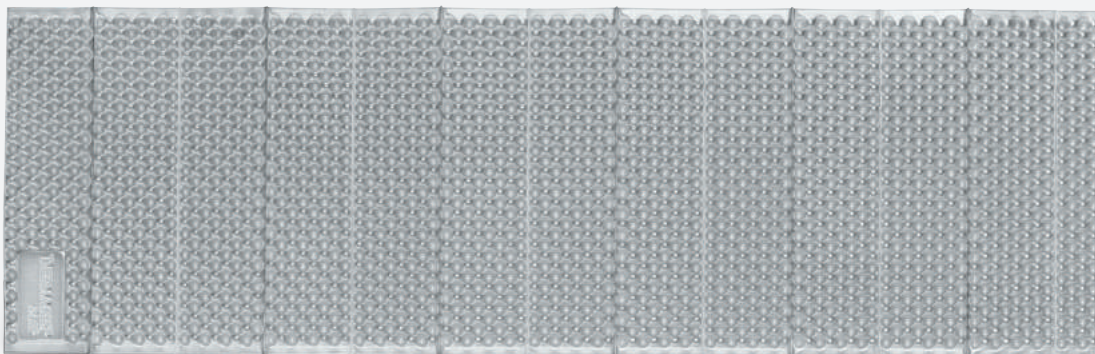

SELF-INFLATING

The origin point of Therm-a-Rest. We designed the first self-inflating pad and we still produce the lightest, warmest, and most compact self-inflating pads available.

CLOSED CELL

Essentially indestructible, these pads are a tried and true go-to for thru-hikers and explorers that want extreme durability at an incredible value.

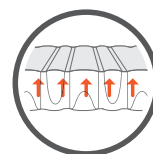

THERMACAPTURE™

An innovative, proprietary material that reflects radiant heat and minimizes heat loss without adding extra weight or bulk.

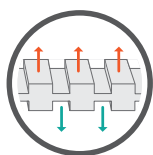

TRIANGULAR CORE MATRIX™

Patented technology utilizes two stacked layers of triangular baffles to create a stable surface while minimizing heat loss.

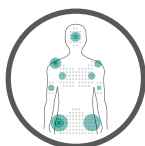

WAVE CORE™

A single layer of horizontal wave baffles that slows convective heat loss without adding extra bulk.

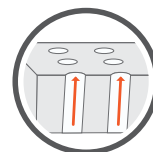

STRATACORE™ FOAM

Yielding the best warmth-to-weight ratio of any self-inflating pad, StrataCore uses a continuous layer of thermal foam nestled between alternating ridges of air and foam.

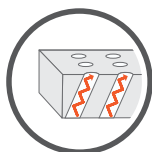

PRESSURE-MAPPING

We use pressure-sensitive measurements to vary the support in our pads to provide intentionally placed support and comfort.

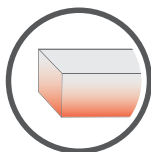

VERTICALLY DIE-CUT FOAMS

A cut structure that allows for a lower density foam, which means a lighter weight and more compact pad.

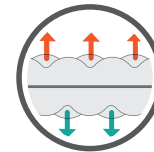

DIAGONALLY DIE-CUT FOAMS

Providing the same reduced weight as our vertically cut foam, our diagonal cuts also boost warmth by minimizing airflow.

THERMAL FOAMS

Open cell foam structure traps air to deliver a higher R-value foam that provides consistent support and durability.

RIDGEREST & Z LITE

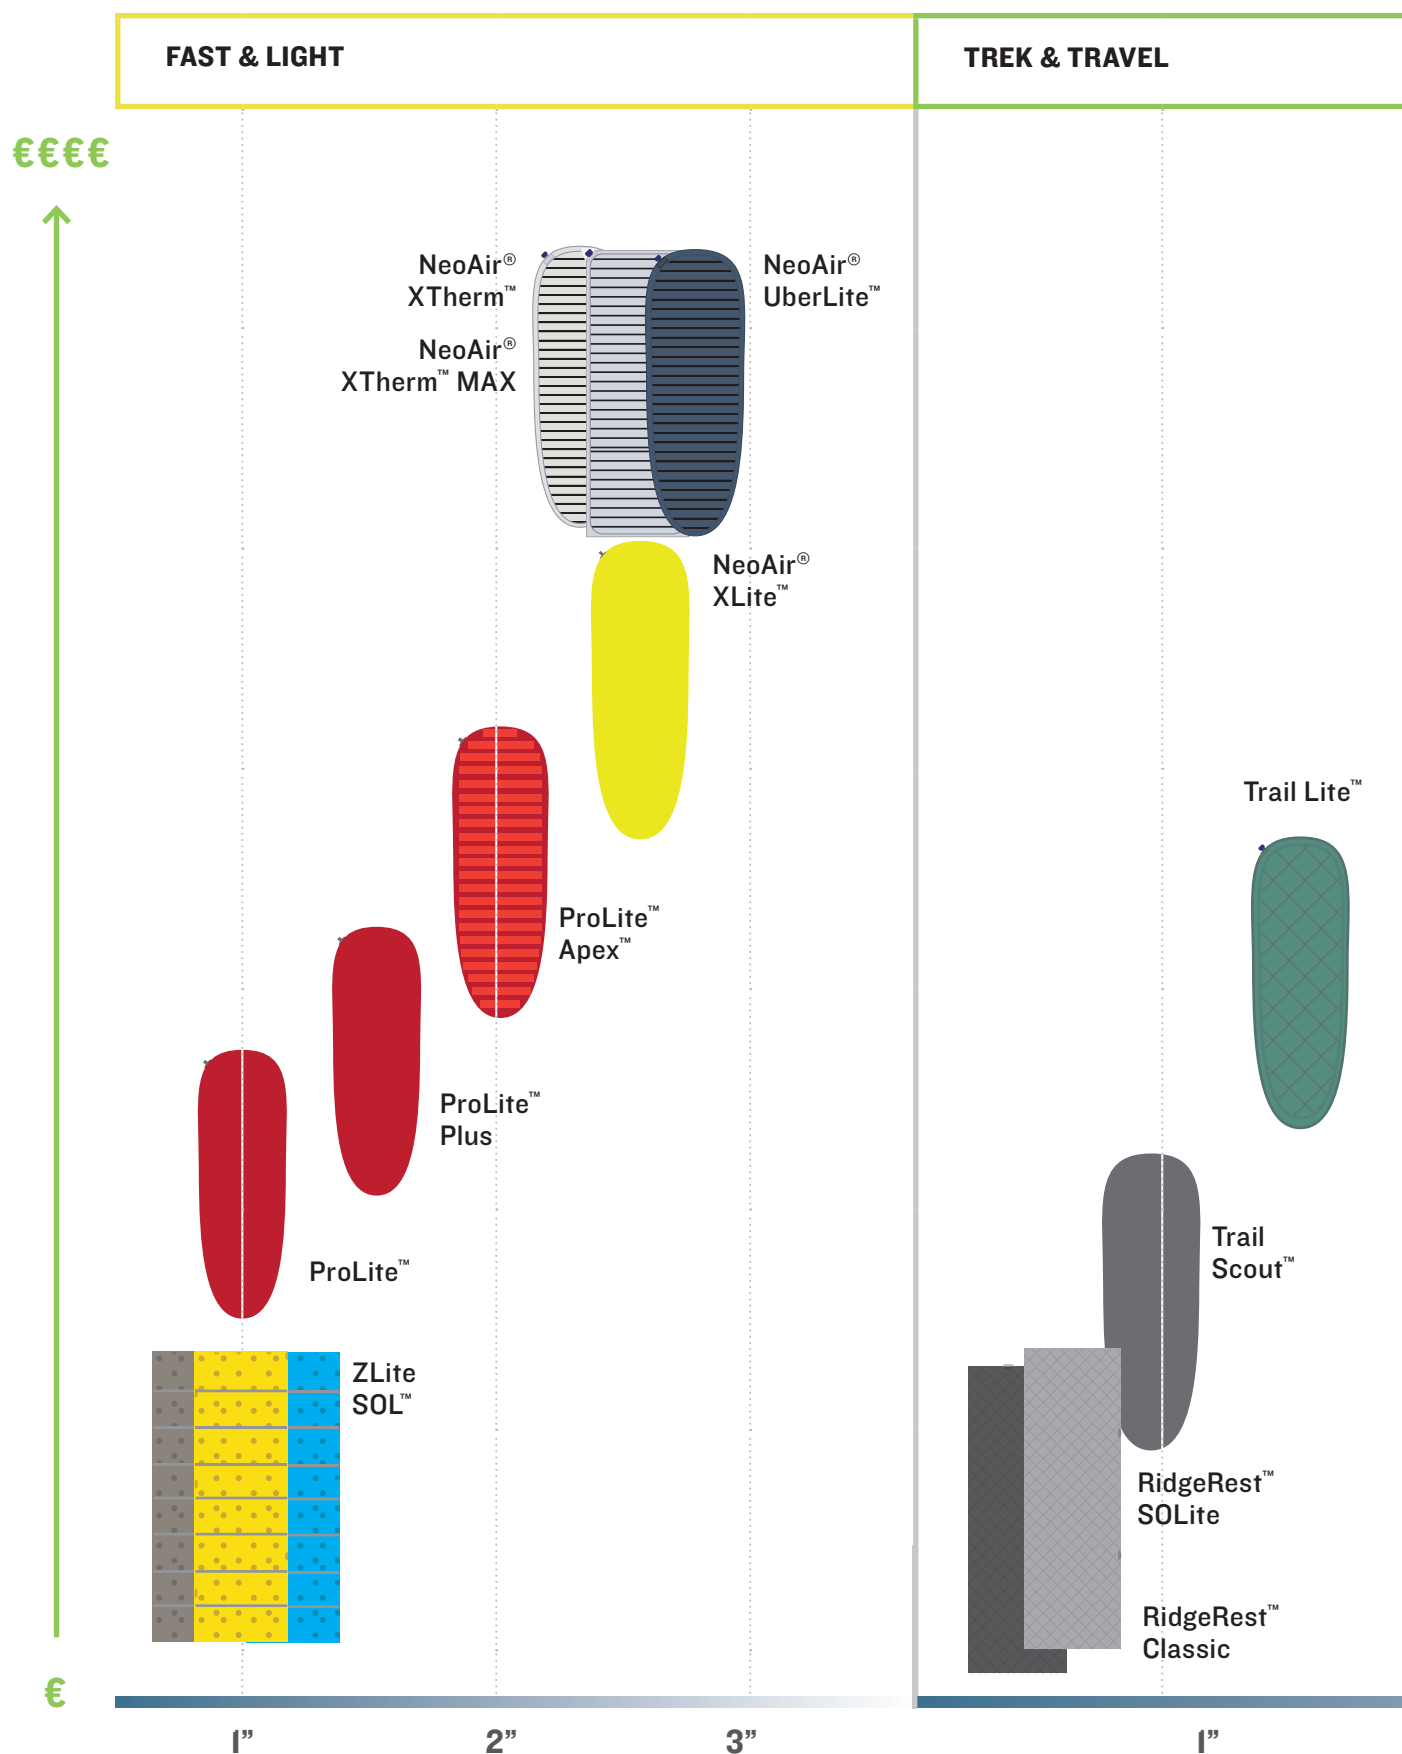

Our unique patterns boost warmth with air-trapping peaks and valleys. Dual-density foam provides a durable and soft sleeping surface. The nesting Z Lite pattern maximizes compactibility.

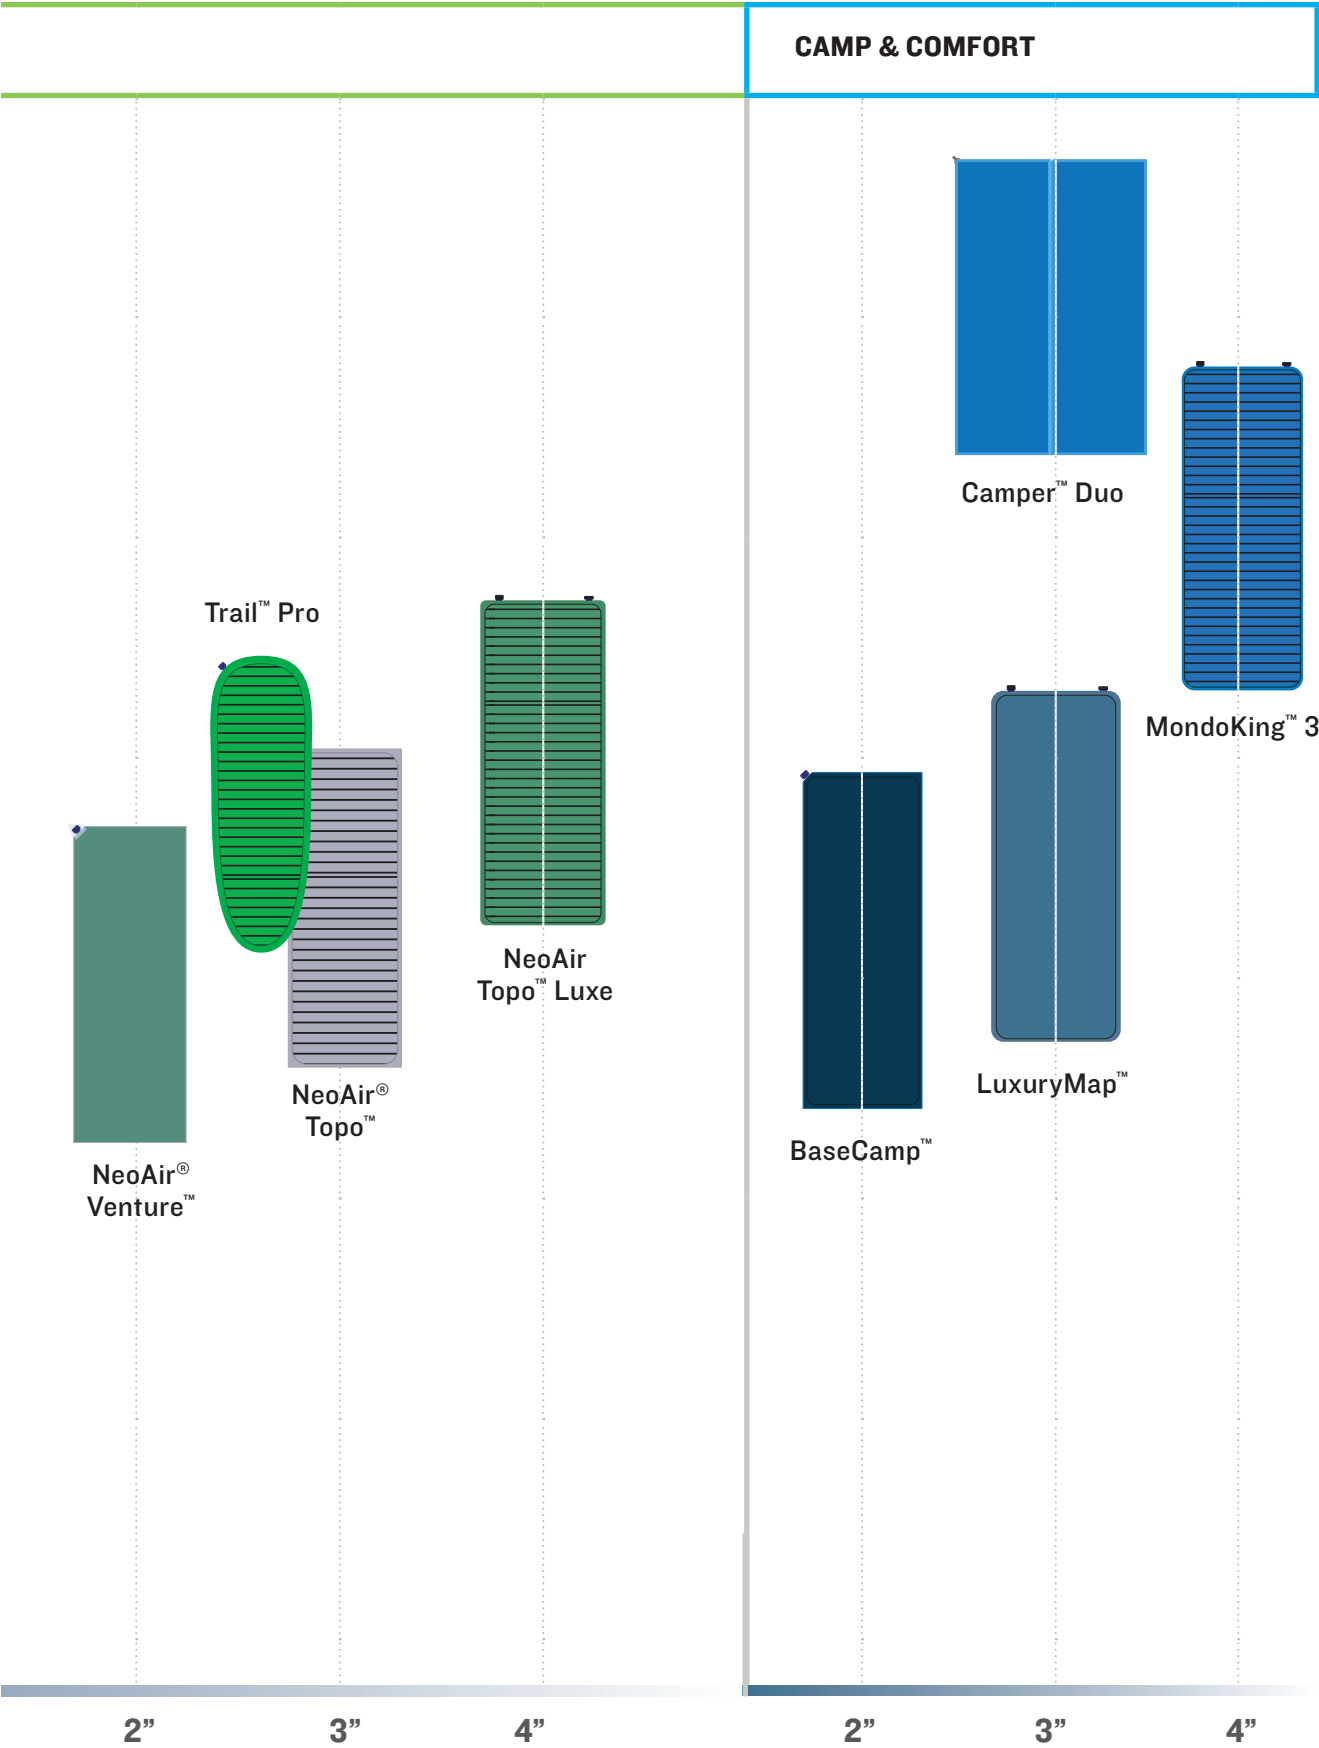

ALL SLEEPING PADS, MADE IN IRELAND

Design room to manufacturing floor. It's not a phone call or a plane flight. It's a walk downstairs. We keep a majority of our manufacturing onsite to ensure that we keep building quality camping goods and that we alleviate the environmental impacts that accompany foreign manufacturing and logistics.

2020 LINE PLAN - SLEEPING PADS

POSEIDON BLUE

UPDATED

LuxuryMap™

Self-inflating foam with three inches of comfort in all the right places thanks to targeted pressure mapping.

- **Plush Materials:** Soft, stretch knit surface feels great next to skin.
- **Targeted Comfort:** Unique pressure-mapped pattern delivers support and softness.
- **Extra Thick:** 3 inches (7.6 cm) of bump- swallowing loft.
- **Self-Inflating:** Compressible foam core expands to inflate; add just a few breaths for your desired firmness.
- **NEW TwinLock™ Valve:** Utilizing two one-way valves, one for inflation and one for deflation, the TwinLock valve system makes setting up and breaking camp a breeze.
- Stuff sack included

UPDATED

BaseCamp™

Built to offer supreme comfort in the frontcountry.

- **Plush Fabrics:** Light, soft fabrics make this mattress exceptionally comfortable.
- **Thick:** 2 inches (5 cm) of thickness provides a high level of warmth and support.
- **Premium Self-Inflating Foam:** Solid foam creates a warmer and more stable BaseCamp. Compressible foam core expands when unpacked for easy self-inflation.
- **Durable:** Sturdy, classic design provides an outstanding value.
- **NEW WingLock Valve:** Our intuitive and dependable valve maximizes air flow for easier inflation and quicker deflation. Wings toggle for one-way inflation to save breath.
- Stuff sack included

THERMA-REST®
SLEEPING PADS

MEDITERRANEAN BLUE

UPDATED

NeoAir® Camper™ Duo

Unparalleled luxury for two.

- **Dual Chamber:** Two independent chambers and valves provides both campers personalized comfort.
- **Gapless Connection:** Our pad creates a consistent sleeping surface that is completely gap free, which keeps both of you comfy all night long.
- **Compact:** Low-bulk construction allows the Camper Duo to compress down to a surprisingly small packed size.
- **Thick and Supportive:** WaveCore™ construction offers 3 inches (7.6 cm) of stable support – perfect for side sleepers and comfort seekers.
- **NEW WingLock Valve:** Our intuitive and dependable valve maximizes air flow for easier inflation and quicker deflation. Wings toggle for one-way inflation to save breath.
- Pump sack, stuff sack and repair kit included

SIZE COMPARISON CHART

TREK & TRAVEL

W.A.R.M. FIT

(With Additional Room for Multiple positions)

For comfort-conscious backpackers, mummy bags can cause claustrophobia. While they're renowned for their thermal efficiency, mummy bags generally don't leave much room for more relaxed sleep positions. On the other hand, semi-rectangular and spoon-shaped sleeping bags offer extra space, but sacrifice the warmth desired for backcountry camping.

Enter our **W.A.R.M. fit (With Additional Room for Multiple positions)**. Our thoughtful design and performance features allow for a variety of natural sleep positions without sacrificing the thermal efficiency needed at camp.

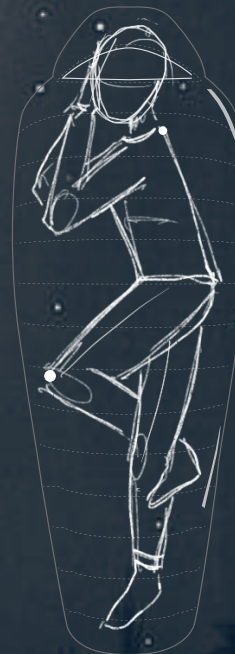

THE MARATHONER

THE TREE POSE

THE CANNONBALL

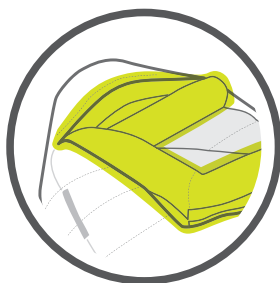

THE FLAMINGO

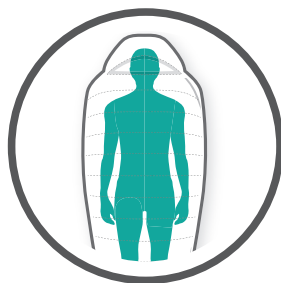

THE ZOMBIE

W.A.R.M. Fit FEATURES

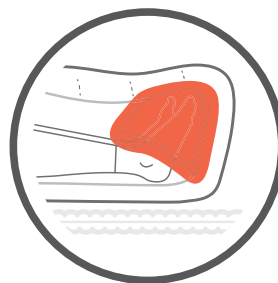

OVERSIZED DRAFT TUBE

Extra down helps keep out drafts and get your best night of sleep.

HUMAN-DESIGNED FIT

Instead of sleeping in a restricting mummy bag, our W.A.R.M. bags deliver a considered shape without sacrificing thermal efficiency like alternatively shaped bags.

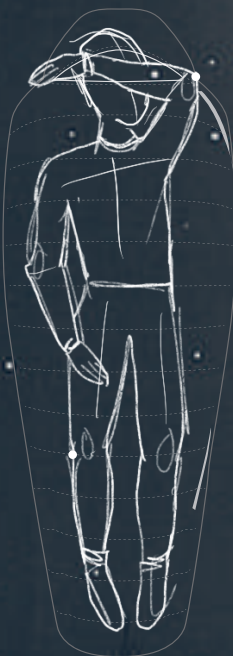

TOE-AXIS FOOTBOX

Thoughtfully-fitted foot box and pocket gives an extra cozy place that is perfectly contoured to your feet to quickly warm up cold toes.

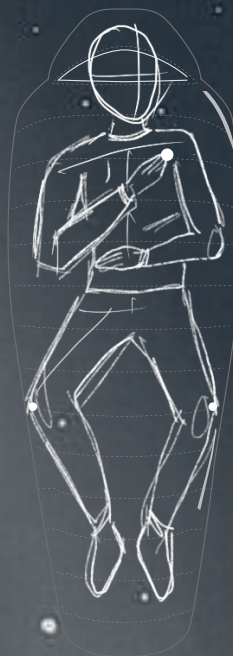

THE STAR GAZER

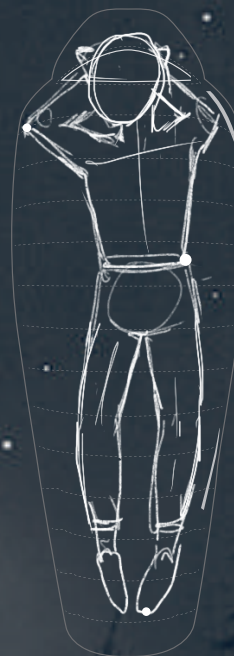

THE DRAMA QUEEN

THE BEACH POSER

THE RELAXED PRETZEL

THE SUNBURN

SLEEPING BAG TECHNOLOGY

When we build a sleeping bag, we use high-performance materials and design elements that create a bag so efficient and comfortable, that we guarantee it. Our design doesn't stop there. We ensure that the bag isn't just a high performer on the specs chart, we make sure that it works in the outdoors, easily stowing away in your pack and working with your sleeping pad to save energy during your adventures.

BUILT FOR CAMP. DESIGNED FOR YOUR PACK.

While our focus is to improve your night at camp, your gear spends a lot of time crammed into backpacks, panniers, dry bags and car trunks. Every piece of Therm-a-Rest gear is designed with the packability that your adventures demand.

EXPERIENCE HIGH-PERFORMANCE REST.

Our background in mountaineering and backpacking has equipped us to approach product design with a more comprehensive view of how your gear works at camp to provide you with better rest. By building our sleeping bags with technologies like **SynergyLink™ Connectors**, **Box Baffled Construction** and **Zoned Insulation**, they become more than just a down-filled sack. With our expertise and unique features, they become a high-performance piece of gear that guarantees a better night outside.

SYNERGYLINK™ CONNECTORS

These removable straps integrate your mattress and sleeping bag to minimize heat loss and keep you secure through the night.

ZONED INSULATION

Intentionally placed insulation puts fill exactly where you need it, maximizing thermal properties while reducing weight.

QUILT & BLANKET LOOPS

Most of our bags are equipped with quilt and blanket loops, allowing you to securely attach extra insulation to customize your sleep system.

NIKWAX HYDROPHOBIC DOWN™

Boasting unrivaled temperature regulation, it dries three times faster, absorbs 90% less water and maintains loft 60 times longer than untreated down.

RESPONSIBLE DOWN STANDARD

All of our down is certified to the Responsible Down Standard so that you can sleep easy knowing that the waterfowl have been treated humanely.

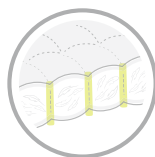

ERALOFT™ SYNTHETIC INSULATION

Hollow fibers boost heat capabilities while shedding weight. Compressible synthetic insulation repels water and possess excellent temperature regulation.

TOE-ASIS™ FOOT WARMER

A baffled pocket of insulation helps rapidly warm cold feet inside of our ergonomic footbox.

BOX BAFFLED CONSTRUCTION

To maximize thermal efficiency in key areas, we use mesh box baffles to boost loft and eliminate cold spots at the seams of the sleeping bag or quilt.

WARMTH YOU CAN TRUST

TEMPERATURE RATING IN ACCORDANCE TO EN 13537 / ISO 23537				
COMFORT RANGE	32° F 0° C	TRANSITION RANGE	20° F -6° C	LIMIT RISK RANGE
				-9° F -23° C

RECOMMENDED TEMPERATURES		
COMFORT	14° F -10° C	LIMIT
		0° F -18° C

Our on-site manikin and cold chamber allow us to design products that will perform in the field. Our chamber and independent testing provide temperature ratings for our products. All hooded sleeping bags above 10 degrees Fahrenheit get rated in accordance to EN (European Norm) 13537 and ISO 23537. Our blankets, quilts and non-hooded sleeping bags are given a suggested comfort and limit range that differs slightly from traditional EN ratings, because these products require extra insulation for your head and integration with a mattress. Use these charts to understand the warmth you can expect from Therm-a-Rest products.

Comfort Range & Rating: This is the lowest recommended temperature for a “standard” woman (25 yo, 132 lb (60 kg), 5’2” (157 cm)).

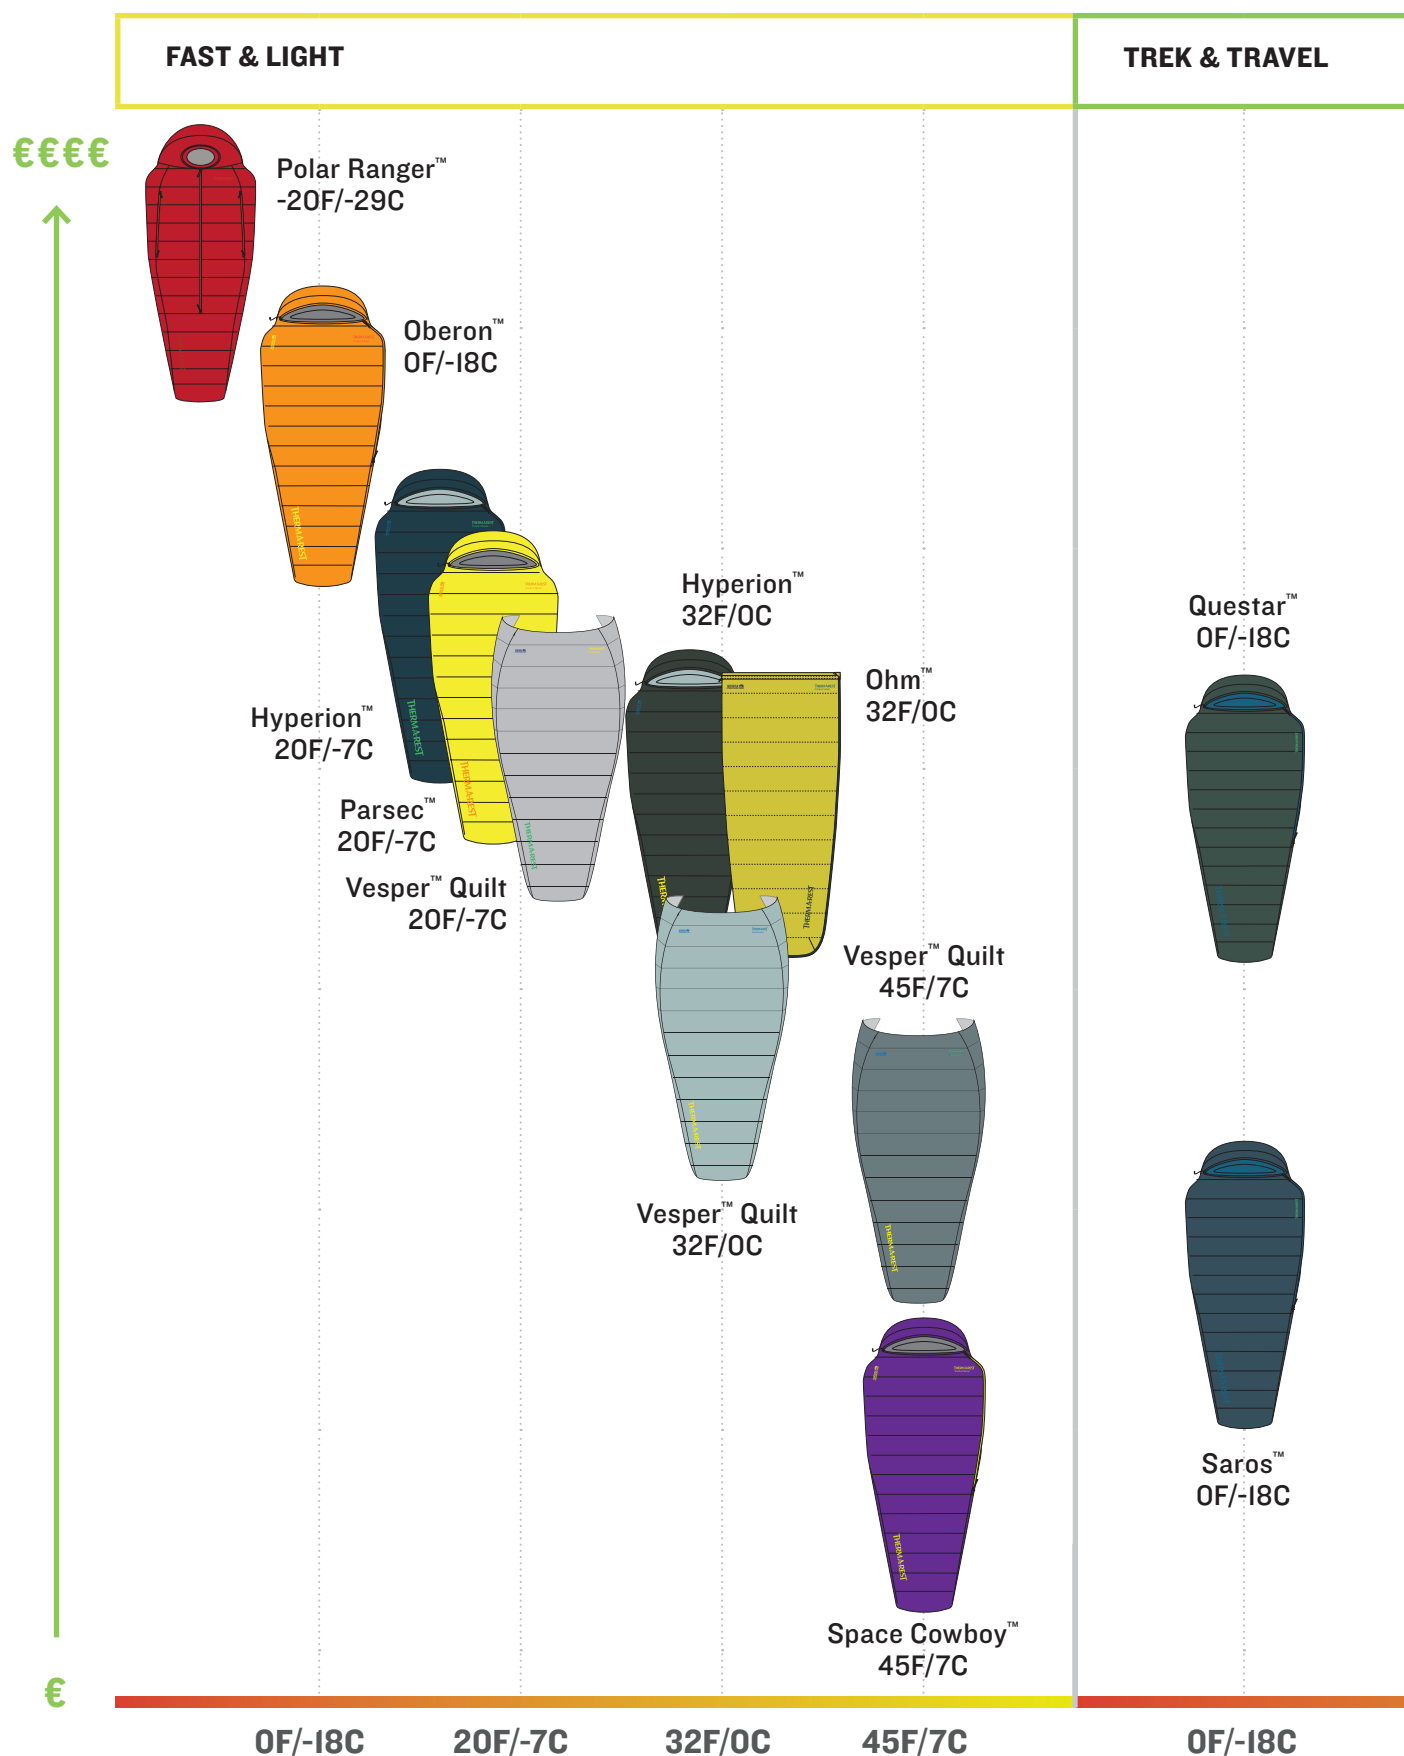

Transition Range & Limit Rating: This is the lowest recommended temperature for a “standard” man (25 yo, 154 lb (70 kg) and 5’7” (170 cm)).

Risk Range & Rating: The sleeping bag should only be used in this range in an emergency, or by those with ample experience in augmenting a bag’s warmth.

Questar™ 32F/0C

For the comfort-conscious backpacker, the Questar blends comfort features with a backcountry-friendly packed size.

- **650 Fill Nikwax Hydrophobic Down™:** Absorbs 90% less water and dries 3 times faster without using dangerous PFCs.
- **W.A.R.M. Fit:** With Additional Room for Multiple positions (W.A.R.M.) fit means this bag allows for various natural sleep positions while maintaining thermal efficiency.
- **SynergyLink™ Connectors:** Integrate the bag with a mattress for optimal comfort and thermal efficiency; removable for versatility.
- **Zoned Insulation:** Maximizes warmth and saves weight by intentionally placing down where you need it most.
- **Box Baffled Construction:** Uses mesh walls to maximize loft and minimize cold spots.
- **Toe-asis™ Foot Warmer Pocket:** Baffled pocket of insulation rapidly warms cold feet.

OUTDOORS EMPOWERED NETWORK

CONNECTING YOUTH TO NATURE BY BREAKING DOWN BARRIERS.

Being active participants in the outdoor community is a core philosophy of Therm-a-Rest. In order to advocate for certain causes, we partner with organizations like Outdoor Empowered Network to create opportunities for powerful outdoor experiences for all communities.

The Outdoor Empowered Network has two major focuses: building gear libraries and training adult mentors to help get youth outside. They are currently operating 20 gear libraries that serve 30 cities in more than 11 states. These gear libraries, in addition to their training and partner programs, allowed them to bring over 50,000 youth into the outdoors in 2018.

To learn more about our friends at the Outdoor Empowered Network, visit outdoorsempowered.org.

WHY QUILTS?

LIGHTER

Relying on the warmth of an insulated pad, quilts shave weight by eliminating the back panel and hood found on sleeping bags.

SMALLER

Less material means a smaller packed size to minimize the impact on your pack.

VERSATILE

Quilts create the opportunity to layer for extra warmth or to open it up for breathability in mild weather.

COMFORT

Feel like you're sleeping at home with a quilt's non-restrictive shape that allows you to easily find your preferred sleeping position.

HYDROPHOBIC DOWN

Polar Ranger™ -20F/-30C

Recipient of the Backpacker Editor's Choice award, the Polar Ranger is equipped to conquer the most extreme conditions known to man.

- **Overlapping Side Vents:** Side vents open to allow arm use and customizable temperature control. Overlapping draft tubes prevent cold spots when zippers are closed.
- **Snorkel Hood:** Controls frost created by breath and eliminates warmth-sapping cross drafts. Synthetic snorkel resists moisture.
- **800 Fill Nikwax Hydrophobic Down™:** Absorbs 90% less water and dries 3 times faster without using dangerous PFCs.
- **SynergyLink™ Connectors:** Integrate the bag with a mattress for optimal comfort and efficiency; removable for versatility.
- **Responsible Down Standard Certified:** Certification that ensures that the waterfowl in the down supply chain are treated humanely.
- **Additional features:** Toe-asis™ Foot Warmer Pocket, Overstuffed draft tubes, Quilt and Blanket Loops.
- Compression sack and storage sack included

GREATER THAN THE SUM OF ITS PARTS

Therm-a-Rest products are designed to work together to create a more efficient sleep system, which helps you rest better and conserve energy for tomorrow's adventure. The ratings below have been tested in our onsite cold chamber to show you how efficient and versatile layering can be.

TESTING OF TEMPERATURE RATINGS ARE IN ACCORDANCE TO EN 13537/ ISO 23537. TEMPERATURES ACQUIRED BY THERMAL MANIKIN IN AN ENVIRONMENTAL CHAMBER.

TESTING OF TEMPERATURE RATINGS ARE IN ACCORDANCE TO EN 13537/ ISO 23537.
TEMPERATURES ACQUIRED BY THERMAL MANIKIN IN AN ENVIRONMENTAL CHAMBER.

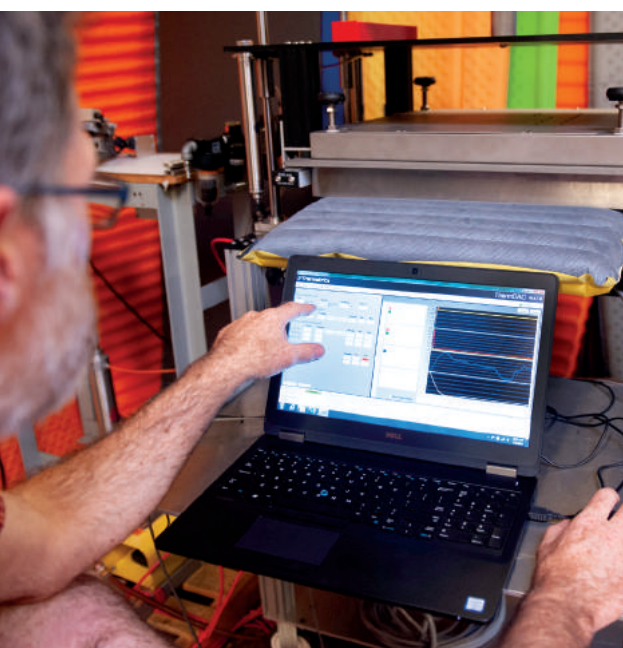

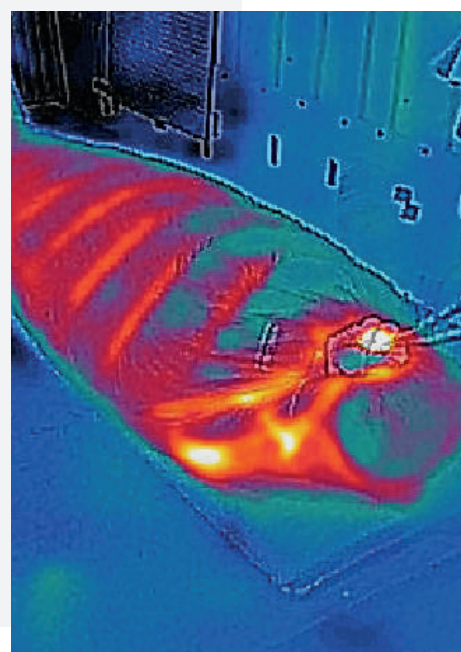

THOUGHTFULLY DESIGNED. METICULOUSLY TESTED.

In the modern market, it can be hard to differentiate one piece of gear from the next. The lines can begin to blur. However, some companies rise to the top based on their guiding philosophies and commitment.

That's why a Therm-a-Rest product is tested more rigorously, designed and then redesigned, measured twice and then sent into more labs and down more trails to ensure quality.

The pursuit of quality is why we invested in a new **R-value tester** for our sleeping pads. It's why we spent hundreds of nights in the mountains with the all-new **WingLock™ valve**. It's why our **onsite cold chamber** and **thermal manikin** is constantly helping us optimize the fill placement in our sleeping bags and quilts.

We know our gear will help you sleep better because we tested every detail.

BLANKETS

Our versatile, insulated blankets are designed for extra warmth during any adventure.

ECLIPSE BLUE

Ramble™ Down Blanket

For nomads and wanderers, the Ramble Down Blanket balances luxurious comfort with the technical demands of the great outdoors.

- **650 Fill Nikwax Hydrophobic Down™:** Thoughtfully-sourced down fill provides a balance of performance and comfort on the go.
- **Soft-touch Materials:** Keeps your night soft and comfy with premium materials and quilted design.
- **Spacious:** Just like your comforter at home, the Ramble Down has enough coverage for two campers with room to spare.
- **Responsible Down Standard Certified:** Certification that ensures that the waterfowl in the down supply chain are treated humanely.
- Storage sack included

NEW COLORS

Honcho Poncho™

An insulated adventure poncho doubles as a stylish and cozy blanket.

- **eraLoft™ Insulation:** Efficient and compressible, our water-resistant synthetic fill uses hollow fibers to reduce weight without sacrificing warmth.
- **Water Resistant:** Offers a wet weather barrier with its water resistant/breathable shell.
- **Versatile:** Use at camp, at the game or anywhere you want a little warmth and freedom.
- **Handy:** Kangaroo pocket warms hands and top zip pocket stows essentials.
- **Packable:** Packs into its own storage pocket.

Stellar™ Blanket

The definition of camp utility blanket, the one-person Stellar Blanket is equally at home in the backyard or backcountry.

- **eraLoft™ Insulation:** Efficient and compressible, our water-resistant synthetic fill uses hollow fibers to reduce weight without sacrificing warmth.
- **Next-to-Skin Comfort:** Soft-touch polyester lining.
- **Draft Protection:** Drawcord at bottom edge reduces drafts and cinches around feet to keep the blanket in place.
- **Versatile:** Perimeter snap loops mate with another Therm-a-Rest quilt, blanket or sheet.
- **Packable:** Compresses into built-in pocket, which can easily double as a camp pillow.

SHEETS

Equal parts luxury and practicality, our brushed polyester sheets keep your sleep surface breathable and your mattress clean. Perfect for any sleep system.

PHOTO: ALY NICKLAS

Sleep Liner

When your sleeping bag needs an extra degree of cozy or you need a soft full-coverage sheet for travel, our Sleep Liner is as versatile as the trail is long.

- **Brushed Polyester:** Soft to the touch and easy to clean between adventures.
- **Quilt and Blanket Loops:** Customize your sleep system by layering our quilts or tech blankets for increased warmth.
- **Added Warmth:** Adds up to 5F/3C of warmth to your sleeping bag or quilt for nights when you need extra protection from the cold.

THANK YOU

TO YOU—THE SHOP OWNERS, STAFF,
REPS & UNRULY DREAMERS

THANK YOU FOR 50 YEARS OF INSPIRATION. Your dedication to adventure, to the nuances of gear, to promoting the outdoors has helped fuel our endless passion to innovate. You are the nucleus of the outdoor community. As such, you've played an invaluable role, not just in MSR's success, but in encouraging people worldwide to unlock their greatest adventures. We're honored and humbled to be your partner. Thank you for all you do.

MSR® TENTS & SHELTERS

LIVABILITY AT THE HIGHEST LEVEL

What's New

Habitude™ Family & Group Camping Tents

Passing on a love of outdoor adventure requires the proper gear, and extra comfort for all. That's why we engineered our Habitude tents—sturdy, standing-height shelters built the MSR way.

Front Range™ Ultralight Tarp Shelter

We significantly lighten things up in the alpine with this ultra-simple, vastly spacious shelter designed for groups tackling giant missions.

Zoic™ 4

The Zoic 4 brings our extra-roomy, ultra-breathable tent to backpacking groups at an unbeatable value and impressive weight—just 5 oz more than the Papa Hubba.

Updated

New detailing, including rainfly vents, and a UPF 50+ coating on the H.U.B., improve the livability of our all-season tents.

CAMPING/ FRONTCOUNTRY

Durable and extra-spacious tents that combine backcountry reliability with frontcountry comfort on everything from family campouts to rafting trips.

NEW

HABITUDE™ 4

HABITUDE™ 6

PHOTO: SCOTT RINCKENBERGER

HABITUDE™ SERIES

Parents seeking to pass their love of the outdoors on to their children now have a home base for just that. Built strong, Habitude tents hold up to family adventures and foul weather (no toppling in wind). And their expansive, standing-height interiors keep everyone—even pint-sized explorers—happy and comfortable.

STANDING-HEIGHT

High ceiling and vertical sidewalls let everyone move about comfortably, lounge and stand up to change. Door pocket allows for wide, easy entry.

STRONG

Robust fabrics, super-sturdy pole geometry, and smooth-glide YKK stainless steel zippers all endure rough use, little fingers, and challenging environments like sand, wind and rain.

EASY TO PITCH

Sets up quickly by one person (or one plus a small helper) thanks to hubbed poles, large, color-coded pole clips and a simple design.

UNPARALLELED LIVABILITY

Integrated porch light for easy night entry; storage pockets for each occupant; lots of hang loops; strategic mesh for airflow and blocking out cold nights; enormous vestibule.

BACKPACKING TENTS

Lightweight and ultra-livable 3-season tents designed for backpackers and adventurers who pursue all kinds of activities.

AVSTAND™ SERIES

Built for adventurers seeking an all-around, high-quality shelter, Avstand tents balance robust protection with light, spacious designs. Their fast, dry setup is perfect for remote treks in Sarek National Park or wilderness trips closer to home.

STRONG

Robust construction and fabrics withstand demanding environments and conditions.

LIGHT

Excellent volume-to-weight ratio creates a light, packable, spacious tent—perfect for kayaking, trekking, cycle touring and other backcountry adventures.

DRY SETUP

Rainfly and tent body are unified to keep the interior dry during set up in foul weather.

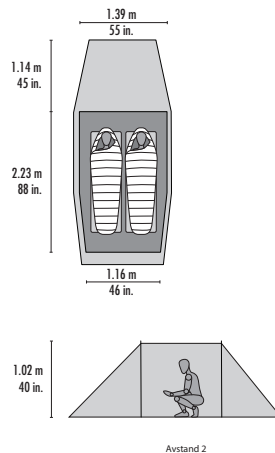

ROOMY

High peak provides generous head & shoulder room, even with thick mattresses; large vestibules and internal pockets offer ample gear storage.

ZOIC™ SERIES

Casual backpackers and weekend warriors can stay cool and comfortable on warm nights in the wilderness with this ultra-breathable, spacious tent designed to help them rest up for more productive days of adventuring. Light enough to take into the backcountry, the Zoic tent can go from trailhead camping to remote mountain lakes with ease, and its easy-pitch design allows for more time to hang out with friends or to enjoy the scenery.

LIGHT

Full micromesh canopy offers max breathability, moisture control, star-gazing and bug-free protection, with minimal weight.

SPACIOUS

A wide floor plan and steep sidewalls create a roomy interior that accommodates a 25-in. mattress for each occupant.

EASY SETUP

Freestanding system; hubbed pole allows for quick setup. All models feature a Fast & Light freestanding setup option with rainfly and Fast & Light™ Body (sold separately).

DURABLE

Proven MSR design geometry is matched with light, strong aluminum poles and long-lasting Xtreme Shield™ coating.

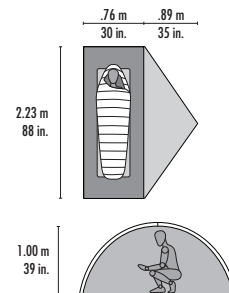

LIVABILITY

Included performance features, built-in gear lofts and extra volume make this tent an excellent value.

HUBBA™ NX SERIES

Now our ultra-livable, lightweight freestanding Hubba tents come with virtually indestructible Easton® Sycrone™ poles* and feature our ultra-durable Xtreme Shield™ waterproof coating, which lasts up to 3x longer than standard coatings.

LIGHTWEIGHT

Featuring lightweight fabrics and tent poles and weight-saving designs, Hubba NX series tents help keep packs light.

LIVABLE

Unique pole configuration maximizes head and elbow room; mesh canopies and adjustable, cross-ventilating rainfly offers optimal airflow and unrestricted views; large StayDry™ doors, large side entry vestibules.**

FAST & LIGHT SETUP

All models feature a Fast & Light freestanding setup option with rainfly and Fast & Light™ Body (sold separately).

EASY SETUP & PACKING

Unified hub-and-pole system is ultra-compact.

*Easton® and Sycrone™ trademarks are owned by Easton® Technical Products.

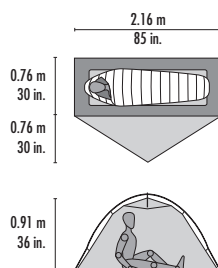

**Add an optional Gear Shed to double the storage space.

FREELITE™ SERIES

When weight is a critical factor but livability also matters in your choice of a tent, our ultralight FreeLite tents are the ideal choice and your best option for a weekend backcountry trip or two-week thru-hike.

ULTRALIGHT PROTECTION

Our lightest semi-freestanding double-wall tents provide full protection without a big weight penalty.

EASY ACCESS

Large doors provide easy access for convenience on longer backpacking trips. Interiors fit a large camping pad per occupant.

VENTILATION

Micromesh canopies offer maximum ventilation and moisture control along with bug-free protection.

DURABLE PROTECTION

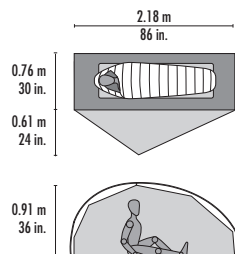

Easton® Syclyone™ poles* are virtually indestructible, and our Xtreme Shield™ waterproof coating lasts up to 3 times longer than standard coatings.

*Easton® and Syclyone™ trademarks are owned by Easton® Technical Products.

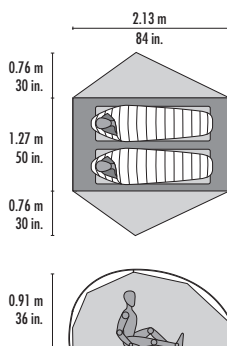

FreeLite™ 1

Our lightest semi-freestanding backpacking tent for one.

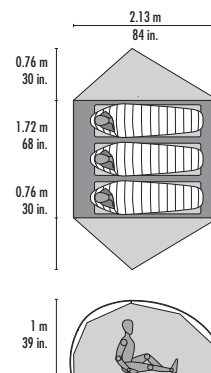

FreeLite™ 2

Two large doors and extra room makes this tent perfect for two.

FreeLite™ 3

Comfortably fits three backpackers, but light enough for two to pack.

CARBON REFLEX™ SERIES

Lighter than our freestanding backpacking tents, our Carbon Reflex tents offer backpackers double-wall protection, 3-season livability and superior packability. Weight-saving fabrics and features, including a zipper-less vestibule entry, make these tents as light as a tarp.

ULTRALIGHT

Lightweight fabrics, Easton® Carbon ION™ poles* and zipper-free vestibules minimize weight.

FAST & LIGHT SETUP

For added versatility on lighter trips, all tent models allow for a Fast & Light setup option with a Fast & Light™ Body (sold separately).

FULL-FEATURED LIVABILITY

The weight of a tarp with the protection, setup ease and livability of a tent. Spacious interiors, mesh storage pockets, and ultra-durable Xtreme Shield™ waterproof coating on floor.

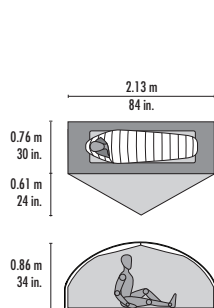

*Easton® and ION™ trademarks are owned by Easton® Technical Products.

2020 LINE PLAN - ALL-SEASON / PROFESSIONAL TENTS

ALL-SEASON TENTS

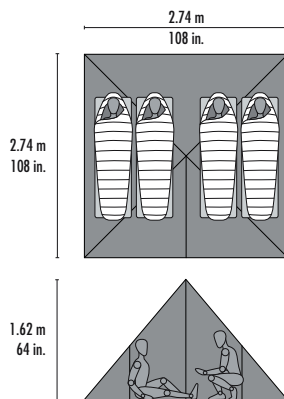

NEW

Front Range™ Ultralight Tarp Shelter

So compact and light, it's hardly noticeable in your pack, the Front Range tarp shelter protects parties of four on giant alpine missions, like spring ski traverses. Supremely versatile—use it as a dining hall—this pack-small, ultra-simple shelter is boosted with our Xtreme Shield™ coating to outlast the competition.

- **Ultralight & Spacious:** Comfortably sleeps four with a 5' 4" peak height for gearing up, at just .74 kg (1 lb 10 oz).
- **Quick Setup:** Floorless tarp sets up quickly with ski or trekking poles; ski straps included for easy assembly.
- **Easy Access:** Zippered door rolls back completely on both sides for sweeping views and easy entry.
- **Versatile:** Light enough to carry as a solo shelter, dining hall, or emergency shelter. Optional Bug/Floor Insert available for wet & buggy terrain.
- **Durable:** Steep canopy sheds snow and water and features Xtreme Shield waterproof coating for long-term durability.
- Accessory pole sold separately.

ACCESS™ SERIES

Now updated with rainfly vents and a swivel pole hub, our Access tents let you spend comfortable days in the winter backcountry without hauling around heavy mountaineering tents. Lighter than our mountaineering tents and warmer than our backpacking tents, these strong tents provide skiers, splitboarders and snowshoers with a robust home base for their mountain pursuits.

STRONG DESIGN

Now featuring a swivel pole hub for faster setup, the tents' central support frame holds up to high winds and heavy snow loads. Virtually unbreakable Easton® Syclone™ Poles further boost durability.

RELIABLE PROTECTION

Durable fabrics offer full protection and warmth in cold weather and in snow conditions found at tree line.

LIVABILITY

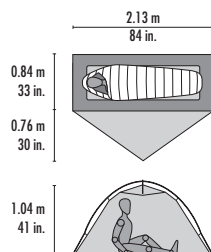

Rainfly vents reduce condensation, while large vestibules protect gear, freeing up more livable room inside the tent.

REMOTE™ SERIES

ALL-SEASON TENTS

Updated with rainfly vents to reduce condensation, our Remote mountaineering tents are more livable and weather-resistant than other mountaineering tents on the market. Whether you're spending 3 days or several weeks on the mountain, these expedition-grade, guide-worthy tents deliver the protection you need and the livability you want.

DURABLE PROTECTION

The tents' virtually indestructible Easton® Sycrone™ poles* are made strong and flexible to resist breaking in severe conditions.

PROVEN DESIGN

The unique central support frame stands up to extremely high winds and resists snow loading.

LIVABILITY

Added space, two large doors, and a large hooped vestibule accommodate climbers with bulky winter gear. Gear loops and other livable features add comfort for weeks in harsh conditions.

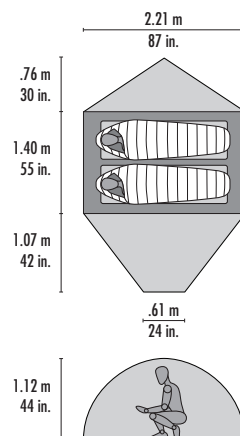

* Easton® and Sycrone™ trademarks are owned by Easton® Technical Products.

RENDEZVOUS™ SERIES

Updated with a UPF of 50+, Rendezvous shelters provide excellent sun, wind and rain protection at campsites and gathering areas.

PROTECTED COVERAGE

Featuring a UPF of 50+ for excellent UV protection, the Rendezvous™ 120 & 200 Wings create nearly 120 square feet and 200 square feet of protected coverage at camp.

STABLE

The shelters' unique 7-point design pitches taut and remains stable in high winds.

VERSATILE

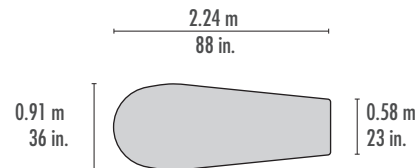

Shelter height can be increased with the use of additional accessory poles.

E-Bivy™

Emergency shelter for backcountry adventures.

- Ultralight, ultra-packable emergency shelter
- Durable bivy offers warmth & weather-resistant protection
- Silicone coated fabric top, Xtreme Shield™ waterproof floor

MSR® STOVES

RELIABILITY WHERE IT COUNTS—IN THE FIELD

What's New

PocketRocket® Deluxe Stove Kit

Taking ultralight adventures up a notch, we've paired our full-featured PocketRocket Deluxe stove with our compact Trail Mini Duo pot to create the ultimate premium kit.

Highlights

Reactor® Stove System Wins

Backpacker's Editors Gold Choice Award

More than a decade after it debuted, the Reactor is still hailed as the state of the art. *Backpacker* says, "Simply put, this is the fastest, most fuel-efficient stove we've ever used."

CONVENTIONAL CANISTER STOVES

Delivering big performance in light and compact designs, MSR canister stoves are engineered to make wilderness cooking quick and easy. Each stove is designed to satisfy a unique demand—from ultralight, fast-boiling performance to precision simmering capabilities.

COOK

PocketRocket® Deluxe

Ultralight and fully featured for a consistently fast and excellent cooking experience.

- **Pressure Regulator:** Maintains stove's fast boil times even in cold weather and with low fuel.
- **Push-Start Ignition:** Fast, reliable piezo lighting; spark igniter is protected inside burner head for maximum durability.
- **Ultralight & Fast:** Just 83 g (2.9 oz); boils 1 liter of water in 3:20 minutes.
- **Broad Burner:** Improves wind resistance and combines with simmer control for excellent cooking versatility.

WINDBURNER® STOVE SYSTEMS

The WindBurner stove's windproof and pressure-regulated design allows it to boil water fast in weather that shuts other stoves down, while unique stove system features add cook-and-eat convenience.

WINDPROOF

Enclosed radiant burner makes stove virtually impervious to wind.

FAST & FUEL-EFFICIENT

Built-in heat exchanger, windproof design and internal regulator produce fast boil times and excellent fuel efficiency, even in wind and cold.

SYSTEM CONVENIENCE

Modular, nesting components produce all-in-one systems that are customizable for everything from solo trips to group adventures.

WindBurner® Personal Accessory Pot

1.0 L pot for our WindBurner stove systems.

- Extra pot lets you and a companion share one burner, reducing pack weight
- Compatible with all WindBurner stove systems
- Includes 1.0 L Pot with fast-boil heat exchanger, canister stand and bowl

REACTOR® STOVE SYSTEMS

The fastest backcountry water-boiling and snow-melting powerhouses on the planet, Reactor Stove Systems deliver in challenging alpine conditions, where wind and cold can wreak havoc on a stove's reliability.

UNMATCHED WIND PROTECTION

Completely enclosed radiant burner head virtually eliminates effects of wind to maintain outstanding boil times and save fuel.

MAXIMUM EFFICIENCY

Radiant burner combines with built-in heat exchanger and internal pressure regulator for best-in-class efficiency in all conditions.

COMPACT

All systems are self-contained, nesting the stove and fuel inside the pot.

COMPATIBLE

Plan for everything from solo to group trips with compatible Reactor Stove System accessory pots in 1.0 L, 1.7 L and 2.5 L sizes.

BOIL

Reactor® 2.5 L Stove System

Our largest-capacity Reactor Stove System for serving small groups.

LIQUID FUEL STOVES

MSR liquid fuel stoves are the epitome of reliability. These time-tested machines remain the mainstay of backpackers, mountain guides and outdoor chefs for their four-season performance, large-pot stability, multi-fuel capabilities and dependable engineering.

BOIL

XGK™ EX

The most reliable multi-fuel powerhouse ever built.

- **Multi-Fuel:** Burns white gas, kerosene, diesel, jet fuel, aviation gas and unleaded auto gas.
- **Unmatched Reliability:** Shaker Jet™ technology and unique fuel delivery ensure a clean burn regardless of fuel.
- **Rugged Build:** Engineered for exceptional stability and lasting durability.
- **Fast:** Boils water in as little as 2.8 minutes.

XGK™ EX

SKU 11043

MADE IN USA

SIMMER

Dragonfly®

Unbeatable reliability and versatility for a wide range of meals and group sizes.

- **Unrivaled Flame Control:** Dual-valve technology allows precision boil-to-simmer control.
- **Extra Wide Pot Supports:** Easily holds up to 10" diameter MSR pots or fry pans.
- **Multi-Fuel:** Burns white gas, kerosene, unleaded auto fuel, diesel and jet fuel.
- **Efficient:** Suspended burner cup produces a strong burn while reducing heat lost to the ground.
- **Field Maintainable:** Shaker Jet™ technology allows easy cleaning and field maintenance.

COOK

WhisperLite™ Universal

World's first optimal performance hybrid-fuel stove—the most effective one ever made.

- **Hybrid Fuel:** Burns canister fuel, white gas, kerosene and unleaded gasoline.
- **Canister Liquid Feed:** Inverting canister allows stove to run on liquid fuel for increased cold-weather and low-fuel performance.
- **Groundbreaking Performance:** AirControl™ technology maximizes the fuel and air mixture with each fuel type.
- **Light and Sturdy:** Lightweight stainless steel legs offer excellent stability.
- **Easy Maintenance:** Extremely easy to swap jets and perform periodic maintenance.

FUEL

MSR's fuels are formulated to the absolute highest standards. Free of additives that cause clogs, their performance-boosting blends burn cleaner and deliver better cold weather performance than any other fuels on the market.

MSR® Fuel Bottles

Designed to work with all MSR liquid-fuel stoves.

- **Airtight:** Allows fuel to be stored longer by preventing air to enter and degrade fuel.
- **Rugged:** Made from a single piece of impact-extruded aluminum to prevent leaks.
- **Child-Proof:** Push-down-and-turn child resistant cap.

MSR® Fuel Bottles			
SIZE	325 ml (11 oz)	590 ml (20 oz)	887 ml (30 oz)

MADE IN	CHINA		

IsoPro™

Our premium, clean-burning, performance-boosting fuel blend.

- **Three Sizes:** 4, 8 and 16 oz canisters meet the demands of any stove or trip; 4 oz canister fits inside the 1.0 L Reactor® and WindBurner® Stove Systems.
- **Superior Performance:** 80/20 blend of isobutane and propane delivers superior cold-weather performance and more consistent output over the life of the canister.
- **Clean-Burning:** Zero-maintenance combustion.
- **Fuel Gauge:** Built-in float gauge determines how much fuel is left (4 oz and 8 oz canisters).

IsoPro™

WATER

NEW

Thru-Link™ In-Line Microfilter

In-line filtering ease and efficiency for moving fast with minimal gear—and clean water on the go.

Don't stop to filter—just fill and go. Built specifically for high-flow, in-line use, this rugged cartridge quick-connects into any reservoir, and is boosted with activated carbon for added protection. Now thru-hikers and diehard minimalists can move fast and drink safely with the least amount of gear possible.

- **Two-Stage Filtration:** Fast-flow hollow fiber removes pathogens, particulate & microplastics; activated carbon reduces chemicals, tastes and odors.
- **Fast:** Engineered specifically for in-line filtration and high-flow drinking.
- **Universal Fit:** Quick-connects into any hydration reservoir.
- **Proven:** Used by the U.S. military for more than a decade.
- **Safe:** Rugged ultrasonic-welded ABS housing. Meets NSF protocol P231 for removal of bacteria and protozoa.

Thru-Link™ In-Line Microfilter

MUST
HAVE

Trail Base™ Water Filter Kit

Our most versatile backcountry filter system ever.

Offering gravity filtration at camp, and a small filter for the trail, plus a water storage bag, this 3-in-1 kit provides incredible flexibility and options—adapting to you and the adventure at hand.

- **Versatile:** Transforms from a gravity system into a small trail filter and back, fast.
- **Easy Transitions:** Trail filter simply quick-connects into gravity system.
- **Complete Kit:** Includes ultralight clean-water reservoir with easy-pour cap.
- **Safe:** Hollow fiber filter meets NSF protocol P231 for removal of bacteria and protozoa.

AutoFlow™ XL Gravity Filter 10 L

Fast, high-volume water filtration for groups and basecamps.

This extra-large AutoFlow system delivers 10 liters of clean water fast—all while you set up camp, prep dinner or relax. Ultralight and supremely packable, it offers the luxury of pump-free group filtration for basecamps, scout troops, horsepackers and other backcountry parties of four or more.

- **Fast:** Uses gravity to filter 1.75 liters per minute, letting you multi-task at camp.
- **Versatile:** Bag hangs or stands upright for maximum convenience.
- **Rugged:** Durable film reservoir with RF-welded seams.
- **Field-Maintainable:** Filter is easily cleaned in the field; no tools required.
- **Safe:** Hollow fiber filter meets NSF protocol P231 for removal of bacteria and protozoa.

TREATMENT

MUST
HAVE

Guardian™ Purifier

The world's most advanced portable purifier.

The Guardian Purifier was designed to be the safest and easiest way to purify water virtually anywhere on earth. With military-grade engineering, it offers ultimate viral protection and revolutionary self-cleaning ease to backcountry users and global vagabonds.

- **Ultimate Protection:** Meets NSF protocol P248, testing standard used by U.S. military for removing viruses, protozoa, bacteria and sediment.
- **Self-Cleaning:** Patent-pending system self-cleans with each stroke, eliminating the need to ever backflush or filter-scrub to maintain flow.
- **Fast, Easy & Long-Lasting:** Purifies 2.5 liters per minute from nearly any source and treats up to 10,000 liters.
- **Rugged Construction:** Stands up to heavy use and extreme environments; the only hollow fibers on the market to withstand freezing.

Guardian™ Purifier

SKU	02370

MUST
HAVE

TrailShot™ Microfilter

So small there's no excuse to leave it behind on fast-paced, all-day adventures.

This pocket-sized filter delivers the clean water you need all day, in a solution that won't slow you down—making it perfect for trail runners, fastpackers, hikers, mountain bikers and other wilderness athletes.

- **Pocket-Sized & Light:** 142 g (5 oz) microfilter stashes in a pocket.
- **Drink from the Source:** Drink directly from water sources along the trail and refill multiple vessels.
- **Fast & Easy:** Quick-deploy design & simple squeezing action fills 1-liter bottles in 60 seconds.
- **Safe:** Hollow fiber filter meets NSF protocol P231 for removal of protozoa and bacteria. Treats up to 2,000 liters.

STORAGE

MSR's water hauling and storage bags are built to endure the rigors of backcountry and expedition travel. Each one is engineered for compact, efficient packing, and all the durability needed to keep this vital fuel reliably at your fingertips.

MSR®
WATER

MUST
HAVE

DromLite™ Bags

Supremely packable water storage bags with the weight savings to match.

- **Extremely Compact:** High-capacity bag folds down to size of its cap for discreet storage.
- **Light:** Lightweight, durable film construction is perfect for fast-and-light travel.
- **Convenient Attachment:** Makes it easy to hang from packs or trees; set up as a basecamp reservoir or shower station.
- **Durable:** Made with rugged film and RF-welded seams.
- **Safe Drinking:** BPA-free.

Dromedary® Bags

The world's burliest solution to collapsible backcountry water storage.

- **Heavy-Duty:** Abrasion-resistant, hydrophobic 1,000D fabric withstands freezing, boiling, and the abuse of expedition crews and hardcore adventurers.
- **Food-Grade Lining:** Ensures better tasting water.
- **Redesigned Cap:** Low-profile 3-in-1 cap lets you fill, drink and pour with ease.
- **Convenient Attachment:** Streamlined webbing and strategic grommets for pack attachment and hanging.
- **Safe Drinking:** BPA-free.

EMERGENCY PREPAREDNESS

MSR's decades of R&D for the U.S. military and disaster relief have produced among the safest and most reliable water treatment solutions for families building peace-of-mind emergency kits.

NEW

Emergency Home Water Filtration System

Provides clean water in the wake of disaster, easily integrating with standard home spigots.

Featuring the Thru-Link™ in-line filter and adapters for easy integration into home water systems, this kit provides safe drinking water if municipal water supplies are ever compromised. Built with a robust design and packaged for long-term storage, it makes the ideal addition to family emergency kits.

- **Always Ready:** Hermetically sealed packaging protects against the elements for long-term, reliable storage.
- **Two-Stage Filtration:** Hollow fiber membrane removes pathogens, particulate and microplastics; activated carbon reduces chemicals, tastes and odors.
- **Easy Fit:** Fits all standard-threaded outdoor spigots and most utility sinks.
- **Safe:** Rugged ultrasonic-welded ABS housing. Meets NSF protocol P231 for removal of bacteria and protozoa.
- **Includes:** Thru-Link Filter, inlet hose with universal faucet adapter and female quick-connect (CPC), outlet hose with male quick-connect (CPC).

Emergency Home Water Filtration System

SKU	13237
MADE IN	USA OF U.S. AND IMPORTED MATERIALS

SE200™ Community Chlorine Maker

Creates chlorine with the push of a button for high-volume water treatment. Perfect for emergency kits and remote basecamps.

- **Simple & Fast:** Turns a salt-and-water mixture into chlorine in five minutes.
- **High Volume Treatment:** Each batch makes enough chlorine to treat 200 liters (55 gal) of water.
- **Reliable:** Smart circuitry produces a consistent chlorine concentration for easy dosing.
- **Proven:** Currently supporting hundreds of thousands of people in low-resource countries and disaster relief efforts.

BUILT FOR WINTER EXPLORATION

Highlights

Paragon™ Binding

When others added, we stripped away. Our Paragon binding proves that a simple, intuitive binding can provide a far better experience—delivering truly uncompromised foot control and comfort.

DynaLock™ Ascent Poles

Win ISPO Award & Make First Descent

Our lightest poles not only took honors at ISPO for their well-engineered designs—they also held strong in supporting MSR athlete Hilaree Nelson on her historic first descent of the Lhotse Couloir.

ASCENT SNOWSHOES

Boasting our new Paragon Binding for ultimate confidence and foot control, our Ascent Snowshoes remain the pinnacle choice for backcountry travelers in rugged terrain.

NEW Paragon™ Bindings:

Ultra-secure Paragon Bindings offer maximum foot control without pressure points, with pack-flat performance, ideal for mountaineers.

Ultra-durable DTX Crampon:

Hard-wearing design stands up to demanding terrain & use.

Efficient Ergo™ Televator:

Reduces fatigue and increases traction on the steeps.

GravityWorks™ 2.0L Water Filter – Complete Kit

Ultralight, versatile pump-free filtration for 2-4 people.

Versatile, ultralight system for small groups and lightweight journeys.

- **Small group ready:** 4 liter (2.0L filtered + 2.0L unfiltered) total capacity supplies water for 2-4 people.
- **Versatile:** Configure for different needs with the 2.0L Platy flexible water bottle and adapters.
- **Includes:** 2.0L Dirty reservoir, 2.0L Platy bottle, Hollow Fiber microfilter, Universal Bottle Adapter, Push/Pull Cap Adapter, hoses, shutoff clamp, and a storage sack.

GravityWorks™ 2.0L Water Filter – Bottle Kit

Minimalist, pump-free filtration for 1-2 people.

Our most compact system filters water directly into practically any bottle or reservoir.

- **Single or couple ready:** 2 liter total capacity supplies water for 1-2 people.
- **Minimalist & streamlined:** Universal Bottle Adapter works with most bottles or hydration systems.
- **Includes:** 2.0L Dirty reservoir, Hollow Fiber microfilter, Universal Bottle Adapter, hoses, shutoff clamp, and a storage sack. Bottle not included.

Meta™ Bottle 1.0L + Microfilter

Personal filter bottle for clean water on the go.

Combining a personal water bottle with a backcountry-ready water filter, this easy-to-use, fast-filtering system provides on-demand filtered water while hiking or backpacking.

- **Easy & fast:** Filters up to 2 liters per minute; just scoop, close and drink.
- **Field maintainable:** Microfilter cleans easily with tool-free, shake-to-clean technique.
- **Safe:** Each microfilter meets EPA and NSF guidelines for the removal of 99.9999% of bacteria and 99.9% of protozoa, including Giardia, Cryptosporidium, E. coli, Salmonella and Cholera.*
- **Simple to clean:** Unscrew bottle halves for easy cleaning; both halves are dishwasher safe (Microfilter is not dishwasher safe).

*U.S. EPA Guide Standard and Protocol for testing Microbiological Water Filters.

RESERVOIRS

HIGH-FLOW ON THE GO

Made in the USA and vigorously tested in our water lab, Platypus hydration reservoirs offer high-capacity, high-flow, taste-free hydration on the go.

PHOTO: CONOR BARRY

Hoser™ Reservoir

Ultralight taste-free, minimalist reservoir with high flow rate.

The original taste-free reservoir, the Hoser has evolved to offer a self-sealing bite valve with a 30% faster flow rate while retaining an ultralight, minimalist design for weight-conscious backpackers.

- **High-flow bite valve:** The self-sealing HyFLO™ bite valve delivers a 30% increase in flow rate from the previous Hoser, making it quick and easy to hydrate on the go.
- **Versatile:** Classic threaded port and 1/4" dia. drink tube make it compatible with accessory caps and adapters.
- **Secure:** Integrated hanger and carry loop secures the reservoir in a backpack.
- **Funk free:** Embedded silver-ion protects clean water from mold and bacteria.

PLATYPUS®

Big Zip™ EVO Reservoir

Premium taste-free, high-flow reservoir loaded with features.

The Big Zip EVO delivers a 50% increased flow rate from the previous Big Zip, making it the fastest-flowing, taste-free reservoir available to backpackers, hikers, and mountain bikers.

- **Fast & easy:** Self-sealing HyFLO™ bite valve, leak-proof shutoff valve, and large 5/16" dia. tubing contribute to fast flow and ease of use.
- **Quick access:** High-mount drink tube quick-disconnect makes it easy to load/unload.
- **Easy to fill/clean:** Wide opening with a semi-rigid baffle and one-handed pincher grip eases filling and cleaning.
- **Funk free:** Embedded silver-ion protects reservoir from mold and bacteria.
- **Quicker drying:** Semi-rigid baffle helps keep reservoir open, ensuring quicker drying with less fuss.

Chuckanut™ Hip Pack

Comfortable and streamlined hip pack with a flexible bottle for short rides.

A comfortable, low-profile way to carry riding essentials on quick outings, the Chuckanut Hip Pack is highly functional and stable, allowing riders to focus on the trail. Unlike most hip packs, the Chuckanut comes with a SoftBottle for on-the-go hydration.

- **Hydration included:** Comes with a .5L taste-free, flexible SoftBottle™.
- **Small size, big comfort:** Padding and mesh take hip pack comfort to new levels.
- **Stable, stay-put design:** Compact size and a wide waist belt keep pack in place on lower back, eliminating ride up or wobble.
- **Device pocket:** Fleece-lined pocket protects screens from scratches.
- **Stay organized:** Internal pocket and straps securely stow essentials.
- **Expandable capacity:** External flap compresses to secure bulky items for quick retrieval.

30+ YEARS OF INNOVATION CONTINUES

At SealLine, we believe outdoor pursuits should never be limited by gear. For over three decades, we've continued to innovate and improve our products to protect your gear while withstanding the rigors of any adventure on or near the water. Innovation continues in 2020 with the new Pro™ Zip premium submersible duffel, WideMouth™ waterproof duffel, and the Baja™ Series transparent View Dry Bag.

SIGNATURE TECHNOLOGIES

RADIO FREQUENCY (RF) WELDED SEAMS

Radio frequencies are employed to bond fabric together at the molecular level. This strong, long-lasting, reliably waterproof construction method withstands up to 2x more stress than sewn-and-taped seams, which can fail over time allowing water to pass through the materials.

PURGEAIR™ VALVE

Waterproof, one-way valve vents air trapped in the dry bag while keeping water out. Our innovative valve is more durable and reliably waterproof than two-way fabric membranes and manual open/close valves.

DRYSEAL™ CLOSURE

Our easy-to-use, dual-strip system amplifies roll-top closure protection while making it intuitive to achieve an optimal seal for the best waterproof protection.

SEALLOCK™ CLOSURE

Discreet and easy-to-use dual-track zipper closure seals tight for confident submersible protection.

CONTINUOUS COMPRESSION

Unlike conventional systems that pull against seams, our Continuous Compression system encircles the sack to minimize seam strain, maximizing durability for dependable protection.

QUICKCLIP™ CLOSURE

Our QuickClip closure (found on our Urban dry pack) allows you to snug up your load with an easy pull down, intuitively locking the closure for an optimal seal. To release, simply pull down.

WATER PROTECTION RATINGS

SPLASHPROOF

Protects gear from light rain and splashes.

WATERPROOF

Protects gear from heavy rain and soakings.

SUBMERSIBLE

Protects gear from full water submersion – withstands 1 meter of water for 30 minutes.

DUFFELS **STURDY, SECURE, ESSENTIAL WATER DEFENSE**

Our new and updated submersible and waterproof duffels confidently protect your gear while comfortably hauling it.

PRO ZIP™ DUFFEL

Our new premium submersible gear hauler

- SUBMERSIBLE PROTECTION
- WATERPROOF, PVC-FREE MATERIALS
- DURABLE RF WELDED SEAMS
- YKK AQUASEAL® WATERPROOF ZIPPER
- COMFORTABLE, REMOVABLE CARRY/ SHOULDER STRAPS
- GRAB HANDLES & LASH POINTS

WIDEMOUTH™ DUFFEL

Easy-loading roll-top waterproof duffel

- ADAPTABLE D-RINGS
- DURABLE, PVC-FREE MATERIALS

NEW

Pro™ Zip Duffel

Our premium, comfortably portable and submersible gear hauler.

For boaters, paddlers and adventure travelers seeking a top-of-the line submersible gear hauler, the new Pro Zip Duffel offers highly durable gear protection in all conditions. The Pro features heavy-duty, PVC-free waterproof materials, RF welded seams, corrosion-resistant hardware, and a tough YKK AquaSEAL® waterproof zipper. Plus, it's extremely portable with removable carry handles that double as shoulder straps for versatile, comfortable carrying.

- **Submersible protection:** Rated to withstand full submersion in 1 meter of water for 30 minutes.
- **Comfortably portable:** Removable carry handles/shoulder straps with strap keeper offer versatile carry options.
- **Lasting durability:** Strong polyurethane-coated polyester, an abrasion-resistant bottom, and RF welded construction provide long-lasting waterproof performance.
- **Easy access:** Smooth-gliding, high-quality YKK AquaSEAL® waterproof zipper.
- **Easy, secure handling:** Four side-haul handles make for easy handling; lash points secure duffel to boats, vehicles, etc.

WideMouth™ Duffel

Easy-loading roll-top waterproof duffel.

Built to handle the rigors of adventure travel and car-top hauling, this easy-to-load PVC-free duffel features a wide opening for no-hassle organizing and packing with stout waterproof protection. It features an updated shape and adjustable handles for better performance.

- **Easy packing:** Wide opening for quick, simple packing.
Waterproof: Constructed with 100% waterproof materials & RF welded seams.
- **Confident roll-top closure:** Our original DrySeal™ closure design amplifies waterproof protection.
Easy to secure: Adaptable D-rings double as tie-downs.
- **Versatile carrying:** Adjustable carry straps with snap closure keeps handles together.
- **Light colored interior:** Easily spot contents within.

BLACK

Pro™ Dry Pack

Our most supportive & comfortable large-capacity waterproof pack.

Your go-to choice for big river running, frequent portaging, and worry-free expedition travel, the Pro boasts a heavy-duty suspension system built to support the biggest loads.

- **Waterproof:** Ultra-durable waterproof materials & welded seam construction for confident protection.
- **Full-length support:** Full-length framesheet transfers weight to the waist belt for optimal load support.
- **Premium comfort:** Soft-edged padded shoulder straps, full-length breathable back panel padding, lumbar padding, and padded waist belt ensure comfort when hauling massive loads.
- **Tailored fit:** Suspension system adjusts between three sizes—S, M, L—to fit torso lengths 17 in, 19 in and 21 in (43 cm, 48 cm and 53 cm).
- **Better bottom:** Reinforced bathtub bottom delivers the ultimate in durability.
- **Light-colored interior:** Eases identification of contents within.
- **Streamline-able:** Shoulder straps and waist belt can be removed for a sleek profile.

Black Canyon™ Dry Pack

Versatile & comfortable large-capacity waterproof pack.

From source to sea, and points between, the Black Canyon Dry Pack's versatility makes it a solid choice for any adventure where dry protection and comfort matter. The suspension system takes the sting out of lugging moderate loads.

- **Waterproof:** Ultra-durable waterproof materials & welded seam construction for confident protection.
- **Balanced comfort:** A "just right" amount of support subdues moderate loads via padded shoulder straps, padded waist belt, and both upper back and lumbar padding.
- **Light-colored interior:** Eases identification of contents within.
- **Tight, simple sealing:** DrySeal™ roll-top closure makes it easy and intuitive to achieve an optimal seal and secures with side compression straps.
- **Streamline-able:** Shoulder straps and waist belt can be removed for a sleek profile.

BAJA™ SERIES

Classic dry protection for all-around use

SealLine began with a single dry bag—the Baja. The idea behind it was simple: create a durable waterproof bag for all-around use. The Baja caught on and grew to become our most popular all-purpose dry bag to date. For 2020, SealLine adds the transparent View Dry Bag to the Baja Series—because you can always use more of a good thing, especially one with a view.

SHARED FEATURES:

WATERPROOF

Constructed with 100% waterproof materials and tight-sealing closures to deliver protection in wet environments.

DURABLY CONSTRUCTED

Fully welded seams result in stronger and more durably waterproof construction compared to sewn-and-taped seams.

DRYSEAL™ CLOSURE

Our easy-to-use, dual-strip system amplifies roll-top closure protection while making it intuitive to achieve an optimal seal for the best waterproof protection.

DRY BAGS

DISCOVERY™ SERIES

Ultra-durable dry protection
for exposed conditions

Our most rugged and versatile dry bags, the Discovery Series is built to deliver resolute waterproof protection on raft trips, fishing expeditions, SUP day trips and overland adventures. Keep discovering what's around the next bend, again and again, with our top-of-the-line dry bags.

SHARED FEATURES:

BUILT FOR THE JOURNEY

Made of rugged, flexible, fully waterproof materials that withstand frequent and demanding use.

WATERPROOF

Constructed with 100% waterproof materials and confident closures that seal out the elements.

DURABLY CONSTRUCTED

Fully welded seams offer stronger, more durable waterproof construction compared to sewn-and-taped seams.

OVAL BOTTOM

Stable shape keeps bag from rolling around and makes it easy to store, stack, and pack.

TIGHT, SIMPLE SEALING

DrySeal™ roll-top closure makes it easier and more intuitive to achieve an optimal seal.

PVC-FREE

Materials have a reduced environmental impact over vinyl-coated materials.

Discovery™ Deck Dry Bag

Our finest, most feature-rich ultra-durable dry bag.

The Discovery Deck Dry Bag is our top-of-the-line dry bag, delivering resolute waterproof protection from day trips to expeditions, whether lashed to a SUP board, stowed in (or on) a boat, slung over a shoulder, or strapped to a car, motorcycle, bike, or burro.

- **PurgeAir™-equipped:** Waterproof, air-purging valve compresses bag further once sealed.
- **Adaptable:** Adjustable carry strap and lash points make it easy to carry or anchor the bag.
- **Easy-view interior:** Light or semi-translucent interiors allow you to easily spot contents within.

DRY BAGS

BULKHEAD™ SERIES

Easy-sliding dry protection
for boat hatches

Designed to use in cramped boat hatches, our Bulkhead Series bags boast flexible, easy-sliding materials, air-venting valves, and hatch-friendly shapes to make the most of limited boat storage space—all while providing our renowned waterproof protection.

SHARED FEATURES:

STOW-FRIENDLY

Made of durable materials that help the bag slide smoothly in and out of boat hatches.

WATERPROOF

Constructed with 100% waterproof materials and confident closures to deliver protection in wet environments.

PURGEAIR™-EQUIPPED

Waterproof, air-purging valve compress bag further once sealed.

TIGHT, SIMPLE SEALING

DrySeal™ roll-top closure makes it easier and more intuitive to achieve an optimal seal.

DURABLY CONSTRUCTED

Fully welded seams result in stronger, more durably waterproof construction compared to sewn-and-taped seams.

PVC-FREE

Materials have a reduced environmental impact over vinyl-coated materials.

PackTowl® **FRESH TAKE ON FAMILIAR FAVORITES**

From trips to the local yoga studio to spontaneous dips in high-alpine lakes, PackTowl provides on-demand comfort for any adventure with lightweight, quick-drying, super-absorbent, easily-packable technical towels. For 2020, the original outdoor towel brand offers the same great microfiber towels with fresh new colors and eye-catching prints.

NEW PRINTS AND COLORS

Personal

Our best-selling, ultra-versatile towel.

Our Personal towel offers the perfect balance of softness, weight, and absorbency. Great for traveling, camping, water sports and everyday gym workouts, it's light and compact enough to take everywhere. The hang loop attachment makes hanging and drying your towel a breeze.

Zippered storage pouch included.

- **Superfast drying:** Dries 70% faster than comparable cotton towels.
- **Polygiene®:** Eco-friendly silver-ion odor control keeps towel fresh longer.

* Trademark owned by PolygieneAB.

Original

Super absorbent, heavy-duty utility towel.

Our original outdoor towel remains the go-to utility drying tool for everything from camp cleanup and wiping moisture off a tent, to mopping up inside a boat. Plus, it softens with every wash thanks to sustainable fiber-based fabric. The hang loop attachment makes hanging and drying your towel a breeze.

Zippered storage pouch included.

INCLUDES: One Body Demo Towel with hang loop.

SKU 09297

SIZE 36 in X 59 in

CUSTOM PRINT PROGRAM

PROGRAM INFORMATION

By emblazing your logo on popular Platypus® or SealLine® products, our custom printing program helps you differentiate and promote your brand with useful, respected products.

SealLine® Custom Baja™ Dry Bags

Custom Baja™ dry bag program heat stamps a black or white ink logo on your choice of a 5 L, 10 L, or 20 L dry bag in one of four bag colors (Red, Yellow, Olive, Black). Single side included.

UNIT MINIMUM	100 (can mix sizes and colors)
LEAD TIME	4-6 weeks
IMPRINT AREA	5 in (W) x 5 in (H) maximum

PackTowl® Custom Personal Towels

Custom Personal towel program laser embosses a logo on a Personal towel. Choice of Indigo, Citrus, Eclipse, Berry, or Bluebird towel colors in one of three sizes (Face, Hand, Body). Logo will appear as darker color of towel color.

UNIT MINIMUM	100
LEAD TIME	4-6 weeks
IMPRINT AREA	3.5 in (W) x 3.5 in (H)

DETAILS

- **Product ships in bulk, without packaging or UPC.**
- Packaging is available upon request for an additional charge.
- Lead time is 4-12 weeks after artwork approval. Orders of 500+ units may extend lead time.
- Order is not modifiable or cancellable after acknowledgement is signed and returned.
- Manufacturer's logos—Platypus® or SealLine®—are on products.
- Prepayment is required. Customer pays for shipping from Cascade Designs.

Platypus® Custom SoftBottle™ .5 L or 1.0 L

Custom SoftBottle™ program screenprints a logo on .5 L or 1.0 L SoftBottle™ with either push-pull or closure caps. One-color logo on single side included; additional colors are an extra cost.

UNIT MINIMUM	250 (of same size only)
LEAD TIME	6 weeks or less
IMPRINT AREA	.5 L: 2.75 in (W) x 4.3 in (H) / 1.0 L: 4.5 in (W) x 5.3 in (H)

CASCADE DESIGNS DIGITAL ASSETS

Our digital asset management program, Media Valet, hosts all of our product photos, brand logos, workbooks, videos, sales collateral and more.

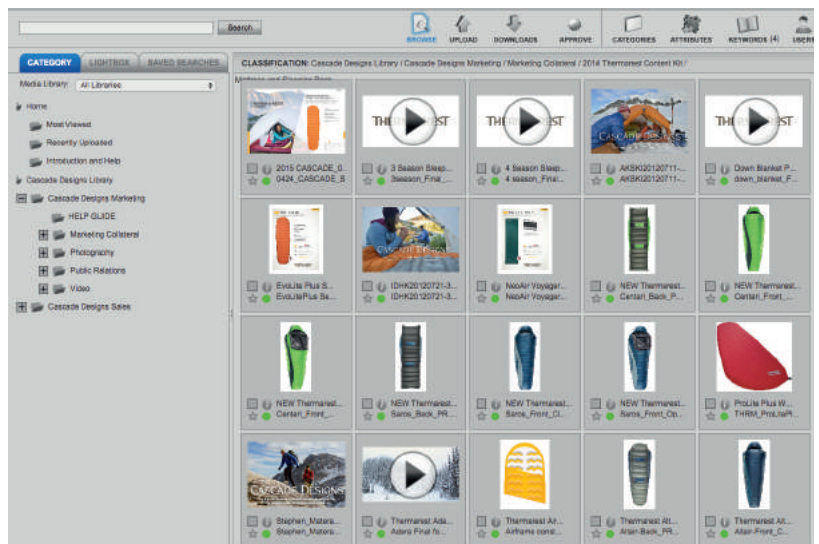

- ▶ **HOW TO LOGIN:** Go to <http://cascadedesigns.mediavalet.com> or from the Partner's Site, click "Image/Doc Download" and type in your username and password.
- ▶ **NEED AN ACCOUNT?** If you do not have a user account click on the "Request User Account" link on the login page. Fill out all the fields and click "Send". Please make sure to fill out your position/company; it will help speed up the approval process. Your request will be sent to an Account Administrator and when it is approved a Username and Password will be sent to your email.
- ▶ **TO CHANGE PASSWORD:** Click the "Profile" link at the top, right-hand side of the screen. To change your password, click "Change" and in the pop-up window that appears enter your old password, your new password and your new password again for confirmation. When completed click "Submit".

HOW TO SEARCH

To begin browsing, click the "Browse" icon.

On the left-hand side is your asset library organized by category. Here you can filter for product photography, brand logos, videos, sales material and more.

Here is an example of a ThermoRest® Content Kit featuring product photos, videos, illustrations and sell sheets.

TIPS FOR SEARCHING:

Using the "Search" bar is a quick way to locate desired files. Here you can search by SKU number or use a semantic search. For example, using AND, OR and NOT.

1. To find Platypus® hydration packs, the best results will occur when you type in "Platypus AND Packs", otherwise the system will search for all items with the keyword "Platypus" and the keyword "Packs".

2. To narrow your search even further you can search for the exact name of the product. For example "Sprinter AND Platypus" will pull up only items with Sprinter and Platypus in the name.

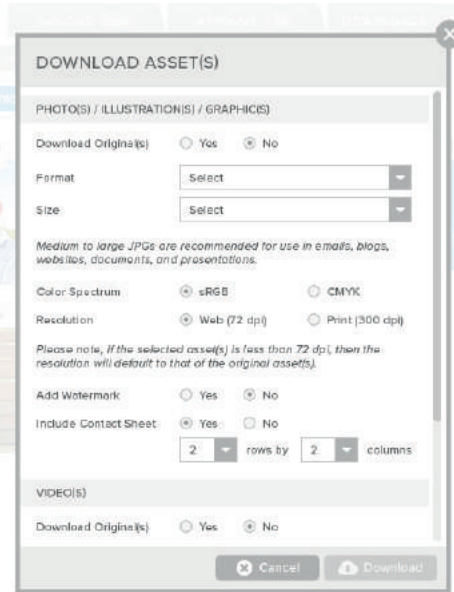

- ▶ **SAVING A SEARCH:** to save a search that you will use again, click on the "Save Search" button that appears below the search bar on the left hand side of the panel after you have completed a search. You can also search using "Categories" which are located in the left panel of your browsing window. This is organized into sub-categories as well.

DOWNLOAD ASSETS

Here is an example of the dialog menu that allows you to download, render and share assets.

Download & Sharing

1. All assets are uploaded in high-res. From the 'download' menu, the user can download the original file size, re-size to their needed dimensions or reformat file types.
2. Assets can also be sent to others via email using the 'share' function.

WHAT IS A LIGHTBOX?

A lightbox is the term used to describe a custom photo gallery or folder that a user can create to store assets they want to reference, access, download or share.

USING A LIGHTBOX AND DOWNLOADING:

The following bulk actions enable you to manage multiple assets at one time:

1. Add to Lightbox: This action will allow you to add multiple assets to a lightbox, which is like a photo gallery to store selected images.
2. Download: This action will allow you to download all selected assets.
3. Share: This action will allow you to share all selected assets in an online gallery or as a zipped file.

HELPFUL FEATURES:

Photography:

1. Lifestyle photos are low-res and watermarked. In order to use a high-res image, please submit the requested image in layout so our designers can approve.
2. Product photos are uploaded as 300 dpi, high-res TIFF files. If you need a smaller, web image you can convert it within this Media Valet program before downloading.

Video:

1. Preview video before downloading. The program enables video playback so you can watch before you download.
2. Depending on your connection speed, videos take about 10 minutes to download. They can be re-sized and rendered according to your specifications.
