WORKBOOK

LIFESYSTEMS

A full-page background image showing a hiker in a yellow jacket and backpack standing on a rocky mountain ridge. The hiker is looking out over a vast, hazy mountain range under a soft, orange-hued sky at sunset or sunrise. The layers of mountains recede into the distance, creating a sense of depth and scale.

FREEDOM TO **GO FURTHER**

Nothing impacts a great adventure quicker than falling ill or sustaining an injury. When you're outside your comfort zone or in an unfamiliar part of the world, the risks mount up. With Lifesystems® at your side, you can travel with confidence. We have protected adventurers and explorers for 30 years against whatever the elements and fate have thrown at them. We work with some of today's leading expedition and emergency medical experts so that, through constant research and scientific innovation, we can help you survive your toughest adventures.

OUTDOOR SURVIVAL

When it comes to adventurous trips, emergency situations usually arise in the worst conditions and that is when having equipment for outdoor survival is important. Being prepared for all situations and ensuring you have the right kit is the first step for any person who loves the outdoors.

Fire & Heat

FIRST AID KITS

The iconic red cases are synonymous with Lifesystems first aid kits. Each pack incorporates the use of hard wearing ripstop fabrics and waterproof zips which provide that extra level of durability and protection. The smaller packs feature belt loop attachments and the larger versions have our excellent Quick-Find system to allow components to be located easily.

Outdoor First Aid Kits

Climbers, mountaineers and trekkers will inevitably find themselves off the beaten track from time to time. If any injuries are sustained, it is important to have a well equipped first aid kit to hand.

INSECT REPELLENTS

Our insect repellents provide effective protection against mosquitoes and other biting insects in all environments. Our range is for those looking to avoid or soothe insect bites and even for those who need to remove ticks. With both DEET and DEET free repellents, Lifesystems is able to cater for all situations.

DEET Mosquito Repellents

In regions where biting insects like mosquitoes are common, there is a risk of contracting diseases such as malaria and Zika. Our DEET-based repellents have been designed to offer lasting protection and tested using the latest efficacy guidelines.

Expedition MAX

An advanced mosquito repellent with our unique DermaLOC technology which locks the DEET on the surface of the skin. Offering 8 hours protection per application, it can be applied multiple times to provide all-day protection.
